Coffee Product List

Whole beans and Ground Coffee

This is a blend of premium, ethically sourced and produced coffee beans. They have been hand roasted, here in Thebarton, to produce a rich but rounded flavour profile. Local roasting and packing ensures the lowest food miles and the best in freshness.

To ensure the best possible cup of coffee, the ground coffee is available in 2 options - a coarser grind for Plunger Coffee and a finer grind for Filtered Coffee.

Whole Beans and Ground Coffee

1 Kg	\$ 32.00
500g	\$ 18.00
250g	\$ 9.75

Coffee Capsules (Nespresso* compatible)

Our unique point of difference are the capsules themselves. They are made from a plant based material - everything about this product is biodegradable and fully compostable. They are Aluminium, GMO and BPA free. The coffee is certified Fair Trade and Organic. Our first blend is similar to the whole bean roast - a rich but rounded flavour profile. Over the next few months we will be adding extra options to the capsule range

10 capsule box	\$5.99
