SpillSmart Absorbents

Absorbent Pads, Rolls and Pillows

SpillSmart Absorbent Poly Pads and Rolls are available in General Purpose, Oil-Only and HazChem varieties.

These products are used in a variety of situations. The General Purpose pads and rolls are best for the absorption of non-aggressive fluids such as oil, water, glycols etc. Our Oil-Only pads and rolls are ideal for skimming oil off water, wiping down greasy tools and machine parts and our HazChem varieties are specifically designed for laboratory situations for the absorption of hazardous chemicals including acids and many other caustic fluids.

GENERAL PURPOSE

Designed for non-aggressive fluids such as oil, water, glycols and oil and water based non aggressive liquids for applications on land.

OIL ONLY

For absorbing & containing oils and fuels only. Will repel water so great for spills on water. Also useful for wiping down greasy tools and machine parts.

HAZCHEM

Specifically designed for the absorption of hazardous chemicals including acids and many other caustic fluids.

All Purpose Absorbent

All Purpose Absorbent is the cost effective, quick acting and natural way to convert potentially harmful liquid pollutants into solids for easy disposal.

An inert mineral-based absorbent, it rapidly encapsulates liquids, and can safely be used on strong acid or alkaline solutions, petroleum and hydrocarbons, oils, solvents, sewage, protein-based fluids in domestic, commercial and industrial situations.

HD-ES-A-AP-15

SpillSmart FloorSweep

SpillSmart FloorSweep is an organic cellulose absorbent that contains highly effective microbes to 'digest' oils and hydrocarbons, converting them to nutritious soil conditioner.

Fully biodegradable, quick acting, safe to use in domestic, commercial and industrial situations.

HD-ES-A-FS-10

SpillSmart HazSorb

SpillSmart HazSorb is a vermiculite product designed to be used in Hazchem spills.

It is a cost effective, non toxic, inert alternative to cellulose (reactive to many chemicals) and a more easily manageable and effective absorbent than regular kitty litter and zeolite style absorbents.

HD-ES-A-HAZ-35

SpillSmart RoadSpill

SpillSmart RoadSpill's biodegradable organic cellulose materials with mineral grit absorb and encapsulate oils, hydrocarbons and other contaminants, leaving paved surfaces dry and reducing slippage.

SpillSmart Containment

Spillbunds

Lightweight and easy to clean, SpillSmart Spillbunds provide spill containment in applications where hydrocarbons or potentially hazardous chemicals/liquids are stored. The flexible side walls allow for simple delivery of liquid storage drums. Made from a strong, chemically resistant and UV stable polymer coated fabric.

- HD-ES-B-SB-PVC 900gsm PVC Version
- HD-ES-B-SB-ELV Heavy Duty Elvaloy Fabric
- HD-ES-B-SB-PLY Polypropylene Version

Lightweight and portable

Collapsible Bunds

SpillSmart lightweight collapsible bunding provides temporary storage of hazardous chemicals and liquids where vehicle access is required. The walls easily collapse and re-erect, and it's easy to transport, store and clean.

- 900gsm PVC Version HD-ES-B-CB-PVC
- Heavy Duty Elvaloy Fabric HD-ES-B-CB-ELV
- Polypropylene Version HD-ES-B-CB-PLY

Easy to erect, pack-down, store and transport

Rigid Bunds

Available in hard wearing, chemical resistant and UV stable polymer coated fabric, and heavy duty PVC or FTL30 for heavier use, such as vehicles driving in, SpillSmart reusable Rigid Bunds are a cost-effective solution for temporary storage of liquids, especially where floorspace is limited.

- HD-ES-B-RB-PVC 900gsm PVC Version
- HD-ES-B-RB-ELV Heavy Duty Elvaloy Fabric
- HD-ES-B-RB-PLY Polypropylene Version

SpillSmart SpillPlug

- HD-ES-PD-350 350g
- HD-ES-PD-650 650g

Save spill clean up costs by the immediate repair of the leak source.

SpillSmart SpillPlug is a non-toxic, malleable material that adheres to wet and dirty surfaces, even while fluid is still running... and it seals instantly! It works with a wide range of chemicals including solvents, gasoline and diesel.

Aluminium Bunding

SpillSmart Aluminium Floor Bunding is a robust, permanent solution for providing hazardous liquid containment in high traffic areas.

As a non-sparking, non-magnetic product, it is the ideal choice for use around flammable liquids and vapours.
