Prepare for a successful transition to school

Our Preschool program is designed for children the year before transitioning to formal schooling (Kindergarten). It is guided by the children's interests and shapes our play-based curriculum – PLAY IS LEARNING!

The children explore and extend their development through creative arts, music, movement, health and well-being, language, literacy, science, self-care and community. With awe and wonder the children unleash their talents, interests and embrace their own individuality.

Our passionate teachers will support your child as they develop social skills such as turn taking, sharing, identifying their own and others feelings, self-regulation and playing with other children to develop social competence which is the core of school readiness.

Preschool tours & interviews for 2024
available Mon to Thur, between 9am and 11am

Book a tour: info@flyingstart.nsw.edu.au
