ARCHITECTURAL MASONRY

SA, TAS, VIC, NSW

Adbri Masonry

Adbri Masonry is Australia's leading masonry manufacturer supplying quality concrete bricks, blocks, pavers, retaining walls, erosion control products, and architectural masonry solutions throughout Australia. Adbri Masonry is a wholly owned subsidiary of Adelaide Brighton Limited, a leading integrated construction materials and lime producing group of companies and a member of the S&P/ASX 200 Index.

In addition to supplying a full collection of quality concrete building and landscaping products, there is a range of valuable benefits to working with Adbri Masonry including:

- ✓ Access to our Contracting Services Team (in-house design, supply, installation and certification team for commercial projects).
- ✓ Confidence that product lines are tested for quality in our N.A.T.A. accredited laboratory.
- ✓ Support from experienced in-house engineers who can provide technical advice and design solutions for civil, commercial and industrial projects.
- ✓ Service from dedicated architectural and engineering consultants.
- ✓ The benefit of dealing with knowledgeable local sales teams.
- ✓ The ability to create customised product and colour solutions specific to individual projects

(conditions apply).

Architectural Masonry

Adbri Masonry's diverse range of architectural masonry products offer designers a variety of colour, style and texture options for both residential and commercial applications. Many of these products are made to order and minimum quantities and lead times apply.

Efflorescence Inhibitor

Adbri Masonry Architectural Masonry products are manufactured with efflorescence inhibitors and colour fastening agents. These additives ensure reduced water absorption, minimisation of efflorescence, reduced mould and water staining and continued colour vibrancy.

Architectural Brick
Smooth coloured bricks.

Blended Brick
Attractive blend of two colours.

Smooth Stone
Coloured blocks in their natural moulded state.

Sandhurst Stone
Coloured blocks with a split texture.

Designer Masonry Honed
Coloured blocks with a honed finish.

Macquarie Stone
Large coloured blocks with a pitched texture.

Designer Masonry Shotblast
Coloured blocks with a shotblast finish

Pitched Stone
Coloured blocks with a pitched texture.

Sandhurst Stone is a versatile masonry product adding a character to both contemporary and traditional designs

Featuring a natural raw face, these traditional split face coloured concrete building blocks are ideal for residential and commercial walling projects. Available in a variety of block sizes including the 1/4 height blocks, Sandhurst Stone is a versatile solution in the creation of distinctive internal or external pillars, fences and walls.

Pitched Stone

Each Pitched Stone block contains a unique finish allowing for the creation of natural aesthetics in innovative project designs

Pitched stone blocks feature a process that crafts a highly detailed, roughly textured block face to create an authentic characteristic to houses, walls and concrete block fences. Used in both contemporary and traditional projects with stunning effect, Pitched Stone can be used on its own or combined with Adbri Masonry's Smooth Stone for a truly distinctive finish.

Macquarie Stone

Think big with Macquarie Stone, our largest architectural coloured block.

Equivalent to two standard bricks in length and three standard bricks in height, make a statement with our largest coloured concrete masonry block. Available in smooth bevelled, pitched or split face, Macquarie Stone will demand attention and add dimension and character to country style residential homes, multi-residential buildings and commercial developments.

Designer Masonry Honed

The honing process cuts the surface layer of the block to reveal the natural stone and aggregate within each block. The end result is a near polished, smooth surface texture which when used individually or combined with other surface textures or mortar colours, will assist in the visual appeal of contemporary designs.

Designer Masonry Shotblast

Designer Masonry Shotblast

The light shot blast process removes the smooth face of the block and exposes the natural stones and aggregates within each unit. This process applies a mildly abrasive texture to the face of the block which provides a natural aesthetic to internal or external walls.

Notes

> Adbri Masonry Architectural Masonry is made to order, please remember to check lead times when placing your order.

> Adbri Masonry Designer Masonry requires a secondary manufacturing process that requires additional lead time to Adbri Masonry's other Architectural Masonry products.

> Quantities per pallet may vary from state to state, please refer to your Adbri Masonry representative for further details.

> Additional fractions can be made by cutting, splitting or bolsting blocks on site, which minimises batch variation.

> Custom colours and/or aggregates may be available on request. Please consult your Adbri Masonry representative. (Conditions apply)

*1 in 8 is a universal block for fractions

^8 blocks in every pallet comes with a closed end.

**Secondary process is applied to the reverse side of these blocks

Technical Information

Standards

All Adbri Masonry Architectural Masonry products are manufactured to Australian Standards AS 4455 Masonry Units and Segmental Pavers and tested for compliance with AS 4456 Masonry Units and Segmental Pavers - Methods of Test. Mortar should be accurately batched and conform to AS3700.

Control Joints

Should extend for the full height of the wall and be spaced at a maximum distance of 6 metres apart where walls are not interrupted by full height doorways or window openings (refer Australian Standards).

Joint Reinforcement

Masonry mesh is recommended at height intervals of 600mm, and in the two courses above and below all openings. Lap mesh at least 150mm at all joints and intersections, except at control joints where a slip joint must be provided. For 90mm walling use 50mm reinforcement mesh and for 190mm walling use 150mm reinforcement mesh.

General Guidelines

All Adbri Masonry Architectural Masonry products should be laid dry, so covering on site is recommended. Whenever work is stopped, the tops of walls should be covered to protect from moisture during construction. All mortar joints should be allowed to set to 'thumb print' hardness before tooling. Brush away excess mortar with a semi-stiff brush at the end of each day's work.

Cleaning

Care should be taken to keep stone as clean as possible during laying. Adbri Masonry recommend the guidelines within CMAA document MA41 Cleaning and Maintenance of Concrete Masonry Structures.

Fire Resistance

Australian Standard AS 3700 Masonry Structure sets out the method for determining fire resistance to walls. The Building Code of Australia requires walls to be designed for insulation, integrity and structural adequacy. Adbri Masonry have had extensive CSIRO testing for FRL and subsequently have a large range of masonry products meeting the requirements of the building code. Refer to the Adbri Masonry Fire and Sound brochure.

Sound Transmission

The statutory requirements for sound attenuation are contained in the Building Code of Australia (BCA) which requires that some walls of some buildings be capable of preventing a large proportion of incident sound from passing from one wall side to the other. These requirements are set out in Section F5 of the BCA. Refer to Adbri Masonry Fire and Sound brochure for more information.

Ordering

Adbri Masonry Architectural Masonry products are manufactured from natural materials and will vary in colour and texture from batch to batch. All products must be ordered at the one time to ensure that they are supplied from the same batch. Product should be blended from different pallets to ensure an even mix of colour throughout any given wall.

Claims

All product must be inspected prior to installation to ensure satisfaction of colour and texture. No claims will be accepted once product has been installed.

BRICKS | BESSER® BLOCKS | PAVERS | RETAINING WALLS

Free pallet collection service freecall 1800 674 961 or drop pallets back to place of purchase or lodge your pallet pick up online at adbrimasonry.com.au

Pallets remain Adbri Masonry property. Please telephone us for collection of pallets and keep pallets empty and stacked in a safe and accessible area for collection.

We will not accept any returns or claims more than 7 days after delivery or after products have been installed. We will not accept returns unless transport arrangements have been agreed and the products are in 'as received' condition and accessible for collection. We will only accept returns as follows:

- Paving and Retaining Walls - returns accepted only in full pallets stacked in original configuration.
- No returns accepted for any made to order product.

The information in this brochure is to be used only with the specific Adbri Masonry products shown. All images, designs, drawings and other depictions of the installation and/or use of products in this document are examples only, and should not be relied on. To the maximum extent permitted by law, in no circumstances will Adbri Masonry be liable to any party for any direct, indirect, consequential, incidental, special or economic loss, damage or injury (which may include loss of profits, loss or damage to goodwill, direct or indirect loss or damage to equipment or property, loss or damage arising from accident, loss of profits or other commercial losses) suffered or incurred by that party.

Adbri Masonry makes no express warranties or representations regarding the products, designs or information set out in this document, and to the maximum extent permitted by law, excludes all representations, warranties, terms, conditions and guarantees regarding the products and designs and information set out in this document, and any other goods or services supplied or provided by Adbri Masonry to the customer that are implied by law (including the general law) or custom. While Adbri Masonry does not exclude, restrict or modify any guarantees, warranties and conditions implied by applicable laws that cannot lawfully be excluded, restricted or modified, including but not limited to those set out in the Australian Consumer Law, to the maximum extent permitted by law Adbri Masonry's liability to any party for a breach of any such applicable non-excludable terms is limited to, at the option of Adbri Masonry: (a) in the case of goods - replacement of the goods, the supply of equivalent goods, repair of the goods, payment of the cost of replacing the goods or acquiring equivalent goods, or payment of the costs of having the goods repaired; and (b) in the case of services - the supply of the services again or payment of the cost of having the services supplied again.
