

WONDERGRASS AUSTRALIA

# NO WONDER EVERYONE'S INSTALLING WONDERGRASS!

WONDERFUL to look at, WONDERFUL to walk on  
...and WONDERFUL without water!

With so many fantastic benefits, it's no wonder **Wondergrass** is such a popular choice, not only in traditional areas like sporting fields, but in a growing number of homes and commercial developments.

**Wondergrass** is the new generation of synthetic grass, developed using today's most advanced technology. It looks real, feels great, and is the solution to water-wise and convenient landscape maintenance as there's no weeding, no mowing and – most importantly – *no water* required.

In fact, **Wondergrass** is such a great solution you'll wonder why you didn't install it sooner!

The **Wondergrass** Advantages:

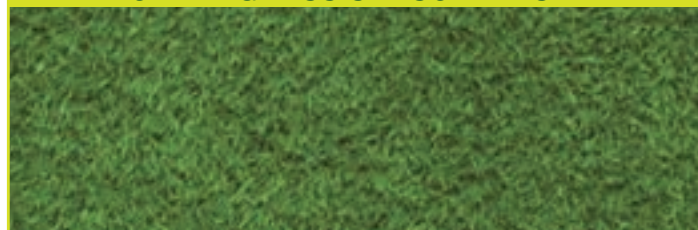

- Great in hostile areas where ground is too dry or shady, under trees or shrubs – you can even cover concrete!
- No water required... ever!
- No weeding, no mowing, no maintenance.
- Allows excellent drainage.
- Looks WONDERFUL all year round.

Roll width is 3.75 metres wide

**Also Available:**  
**Rubber Granules**  
**Joining Glue**

# ▶ INSTALLATION

Follow these step-by-step instruction to install your Wondergrass!

**1** Excavate lawn area to a depth of 75mm.

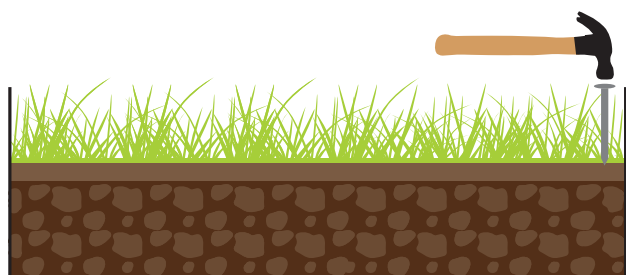

**2** Lay 50mm of crushed rock/roadbase and compact with vibrating plate.

**3** Lay a final layer of crusher dust or 5mm scoria level with a rake or timber board and compact once more with vibrating plate.

**4** Lay your new grass making sure you start from one edge and roll out. Cut the over-hanging quantities with a sharp Stanley knife. When joining rolls of grass together, be sure to use the Wondergrass Joining Tape along the seams. Apply glue evenly along Joining Tape as you go.

**5** Once you have covered the complete area, simply nail all of the perimeters down at 150mm intervals using 100mm flat head nails. This must also be applied to the joining seams.

**6** Top dress the grass with an even sprinkling of fine, dry washed sand to a thickness of 10mm. A broom can be used at this stage to sweep in the sand evenly and to also brush the grass blades straight and vertical.

**7** Sprinkle Wondergrass rubber granules at a rate of one bag per 4-5 square metres. This can also be swept in with a broom.

## ATTENTION – HEAVY LIFTING!

Do not attempt to lift by yourself. It is advised that the rolls be cut into manageable lengths before shifting.

**CAUTION:** This product may become warm in direct sunlight. Please check the surface temperature before walking on it with bare skin.

**MAINTENANCE:** To ensure the best results, we recommend you brush and rake on a monthly basis.
