-  Clinical consumables

CLINICAL FURNITURE

Hipac is the leading Australian owned and operated clinical furniture manufacturer on the NSW Health Clinical Furniture Standing Offer Agreement known as CF820.

CF820 suppliers are preferred suppliers for all NSW Health facilities and have been carefully selected based on their ability to meet a stringent performance framework set out by NSW Health. The performance framework aims to ensure that the best products that are available on the market are supplied to NSW Health facilities and that they are delivered correctly, on time, every time.

Any product that you see on the following pages has been through a rigorous selection process conducted by some of the leading product consultants and clinicians within NSW Health. You can be rest assured that the products shown are some of the best products commercially available within this category of equipment. We couple these products with our commitment to continuously improve and our ability to offer the best lead times and after sales support available. We stand behind each and every product we sell.

All products shown in this brochure include freight free into store, a thirty day money back or replacement guarantee should you not be completely satisfied. This is in addition to our twelve month parts and labour warranty.

Unlike other suppliers, our offering does not stop here. As a local Australian manufacturer, if you are looking for something a little different to what is shown in this catalogue, please contact us on 1800 759 393 to discuss our customisation and special make capabilities. If it can be made in stainless steel, its most likely we can make it for you.

Standard inclusions on any Hipac trolley

Undershelf Bracing

Full undershelf bracing support for all shelves provides maximum stability and strength.

Double Safety Folds to all Shelf Edges

We believe that your new trolley should be easy to use without the risk of injury.

Precision Ball Bearing Castors

We design all of our trolleys with WH&S in mind. Precision ball bearing castors allow the weight of the unit to be carried and moved by the bearings rather than by manual exertion.

Full Extension Drawer Runner

They increase the life of the trolley by reducing impact on the drawer and protecting its contents.

Our Logo

This means we guarantee to stand behind our locally manufactured and imported products.

Benefits of CF820 for NSW Health facilities

- 12 month parts and labour warranty.
- 30 day money back or replacement guarantee should you not be completely satisfied.
- Price breaks available for quantities ordered (up to 25% off).
- Free delivery across NSW.
- Guaranteed to meet TGA and stringent NSW Health quality requirements.

6kg per hook / 12kg total.

PRODUCT CODE:

139239 - Dual Hook

113445 - Quad Hook

STACKING BASE IV POLE

Australian Made 304 Grade Stainless Steel IV Pole with 5 Castors.

Optional

- Equipment Etching

Dimensions

Base Diameter: 560mm

Safe Working Height: 1530 - 2050mm

Product Weight

9.16kg

Safe Working Load

6kg per hook / 24kg total

PRODUCT CODE:

119218 - Dual Hook

139240 - Quad Hook

OFFSET POST IV POLE

Australian Made 304 Grade Stainless Steel IV Pole with 5 Castors.
Offset post with push handle.

Optional

- Equipment Etching

Dimensions

Base Diameter: 560mm

Safe Working Height: 1350 - 2050mm

Product Weight

6kg

Safe Working Load

6kg per hook / 12kg total

PRODUCT CODE:

116908 - Dual Hook

137473 - Quad Hook

OXYGEN BOTTLE HOLDER AND CLAMP FOR IV POLE

Clamps onto any Hipac IV Pole.

Dimensions

To suit C size oxygen bottle

PRODUCT CODE: 116805
