DIY WITH BARRY DU BOIS

\$5K BATHROOM RENOVATION

James and Nat are post-grad students with an eclectic sense of style. They've revamped their 70s apartment with unique knick knacks and sleek second hand furniture, but their bathroom is the odd room out.

They need Barry's help to turn it around – the only problem is they have champagne tastes on a beer budget. And their budget is a miniscule \$5 grand. Barry's challenge is to come up with some clever ways to rework what he can in the existing bathroom and devise some clever cost saving ideas that will still meet their high expectations.

BATHROOM WERX

Bathroom Werx can get rid of those dated colours in your bathroom with no mess, no expensive plumbing or structural changes, and without the hassle of having countless tradesmen trampling through your home for weeks while not having a bathroom to use.

Made in Australia, their unique Werx Enamel will restore your old bathroom back to NEW in the colours of your choice so that when their Technicians leave, your bathroom will be ready to use again in just

24 hours!

Unlike others who use industrial paints, resins and other resurfacing methods that fade, discolour, peel or scratch, Bathroom Werx will completely re-enamel your bathroom with commercial strength Werx Enamel designed specifically for the heavy use and punishment bathrooms are subjected to.

The Werx Enamel is mould and mildew resistant and comes with a 7 Year Written **GUARANTEE** backed by over 25 years Experience.

Bathroom Werx offers On-site Re-enamelling services for:

- Complete Bathroom Makeovers
- Bathtubs & Spa Baths
- Basins & Vanities
- Shower Areas
- Wall tiles
- Specialist Chip Repair Service
