Kinesiology Schools Australia

Kinesiology Schools Australia (KSA) is a Registered Training Organisation (RTO) offering a nationally recognised Diploma in Kinesiology and is accredited by the International College of Professional Kinesiology Practice (ICPKP).

Kinesiology Schools Australia (KSA) offers the highest quality Kinesiology training available and is accredited with the International College of Professional Kinesiology Practice. Unlike many colleges, our emphasis is on Kinesiology and Kinesiology alone. All our lecturers are high level Specialised Kinesiology Practitioners with years of experience to pass on to students. This is a guarantee we are proud of. Some colleges offer Kinesiology qualifications where students will become massage therapists with a little Kinesiology knowledge. Kinesiology Schools Australia are the specialists in the industry. We only offer quality Kinesiology courses and we know our graduates will be sought after practitioners with the knowledge and skills required to be successful in a Kinesiology practice. KSA does not just offer Kinesiology techniques. We offer a successful protocol that has been proven through time by many practitioners. The quality techniques, high level practitioner lecturers and proven protocol guide our graduates to success. This is why we are the best at what we do. If you want a successful Kinesiology practice Kinesiology Schools Australia is here for you. You can search for other colleges but there is no need to look any further. This is the course for you.

Kinesiology Schools Australia consists of three campuses in Queensland, New South Wales and Victoria.

INTERNATIONALLY RECOGNISED TRAINING

Kinesiology Schools Australia are proud to be affiliated and accredited by the International College of Professional Kinesiology Practice. PKP™ has been a leader in kinesiology since its inception by Dr Bruce Dewe in 1984.

KSA Vision & Motto

Vision: To educate the public and students of Kinesiology, for truly holistic health care, wellbeing and positive choice.

Motto: Every day in every way we strive to empower, help, guide and educate those we come in contact with about Kinesiology and true Holistic Health Care and maintenance.

KSA Mission Statement

We are Kinesiology Schools Australia, accredited colleges of ICPKP and this is our mission statement:

To provide quality assurance in Kinesiology education.

To provide training that assists students to learn, grow and embrace life to their highest potential, as they achieve the competencies required of professional Kinesiology practitioners.

To produce graduates who, whilst aware that any profession has its limitations, are confident in their ability to make a positive, long-lasting difference in the lives of their clients using safe, non-invasive Kinesiology techniques and whose primary motivation is to improve the quality and dignity of people's lives.

To aid Kinesiology to become a respected household name and the Kinesiology profession to be a sought-after career choice by people of all ages.

The most effective way to learn Kinesiology

There are many forms of Kinesiology all offering their own 'specialty'. The Professional Kinesiology Program is the most comprehensive and integrated form of Kinesiology available in the world.

The Professional Kinesiology Program (PKP) courses, developed by Joan and Dr Bruce Dewe first originated in the late 1970s and have grown to be one of the most respected Kinesiology modalities available in the world today.

Here in Australia Kinesiology Schools Australia delivers part of the Professional Kinesiology Program within the HLT52415 Diploma of Kinesiology in three campuses around Australia.

This course is designed to teach the basics to beginners and progressively transform them into competent professional Kinesiology practitioners offering them both a financially and emotionally rewarding career.

A Quick Overview

On completion of the KSA Diploma in Kinesiology you will be a competent and confident Kinesiology practitioner, recognised nationally and by both Australian Kinesiology associations (AIK and AKA). The advanced techniques and skills you acquire in this course enable you to become a successful and highly sought-after professional Kinesiologist.

Year one Kinesiology subjects start with the basics, providing the solid grounding in the field and build to conclude with some powerful intermediate techniques so you can start your career while you complete your Diploma. After the first year you will be able to register as a level 4 Kinesiology practitioner with either the AKA or the AIK and can start building your practice.

Year 2 subjects continue building your skills to an advanced level, making sure you have the best opportunity for success.

Throughout the Diploma there is plenty of practical experience gained in class activities during every unit, student clinic, expo's (optional at no extra cost) and student practice times (optional at no extra cost). All this along with the supervision of your experienced teacher fine tunes your skills so you obtain the best possible results with your clients. Our graduates are amongst the best in the field and become highly sought-after practitioners.

Entry Requirements

No minimum education standard is set as a prerequisite for entry to this course.

LANGUAGE, LITERACY, AND NUMERACY

Students require a basic command of spoken and written English as well as basic numeracy skills.

INDUSTRY SKILLS / KNOWLEDGE / EXPERIENCE

No previous industry skill or knowledge is required however it is advisable that applicants have experienced kinesiology on at least one occasion.

MINIMUM AGE REQUIREMENT – 18 YEARS

The entry level age requirement for students applying for Kinesiology Schools Australia training is set at 18. Students younger than 18 may apply with parental permission (however, students will need to be at least 18 years of age in order to participate in client consultations).

CLASSROOM PARTICIPATION

Participants are required to take part in classroom activities that often deal with personal issues and promote personal growth. This requires all participants to behave in a non-judgmental manner to other participants. Confidentiality and privacy must be maintained for participants in the classroom and for volunteers attending Student Clinics. Participants must be willing to work with others regardless of gender, sexual orientation, religious beliefs, and lifestyle choices (eg smoking). Refer to relevant Anti-discrimination legislation.

Byron Bay Campus

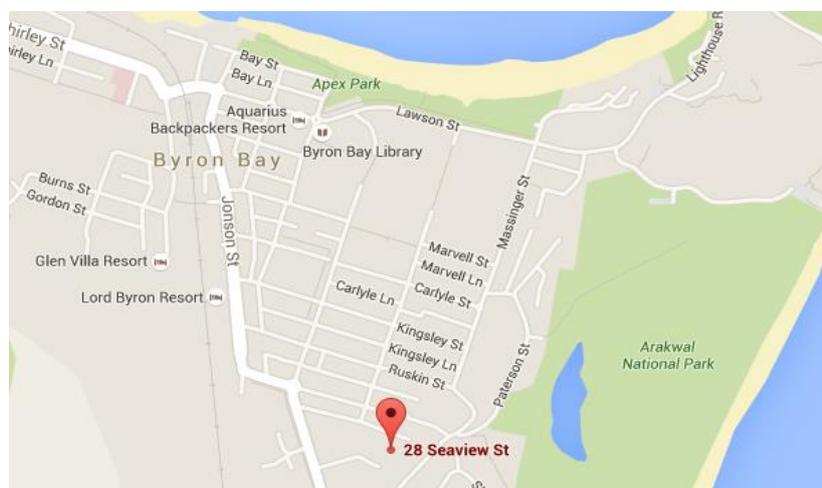

Kinesiology Schools Australia (KSA) is a Kinesiology college, not a naturopathic or massage college with a small Kinesiology component. We specialise in Kinesiology. It makes a difference!

The **Byron Bay Campus** offers student centered learning and smaller classes than city campuses for personalised support.

The college is in a convenient location in walking distance from town and shops and about a 15 minute walk from the beach. There is some car parking at the school and plenty of free parking in nearby streets.

Great facilities - light and airy classroom, student kitchenette, private secluded garden area and verandahs to use during lunch and tea breaks. Byron Bay Campus offers a great environment to study in.

Byron Bay Campus Team

PARIJAT WISMER

The principal of the Byron Bay Campus, Parijat Wismer has been teaching Kinesiology since 1986. Parijat brings her background in Primary School Teaching, Personal Growth Training, HeartMath and Natural Health to her work. She is a registered Herbalist, Fellow Member of the Australian Kinesiology Association, a Kinesiopractor, an International Faculty Member for ICPKP and qualified Magnetic Mind Coach. She is a National and International speaker.

GERALDINE BÉRANGER

Our Foundation Class Instructor brings 23 years of primary and tertiary teaching experience to her work. She is a qualified instructor of the International College of Professional Kinesiology Practice (ICPKP). Geraldine studied her Kinesiology Diploma and advanced levels at the Byron Bay Campus. Her enthusiasm for Kinesiology is tangible and her skills to make complicated concepts easy to learn is an asset to our school. She operates a Kinesiology Clinic in Tweed Heads.

Joanne Cashman is a qualified Kinesiology Practitioner and holds a Cert IV in Training and Assessment. She received her KSA Diploma from the Byron Bay Campus. She is an experienced Kinesiology practitioner, herbalist and skilled **Student Mentor**.

Paritosho Rowe is a qualified and experienced Kinesiology practitioner who studied her Diploma in Kinesiology at the Byron Bay Campus. She holds the ICPKP Qualification of Kinesiopractor and a Cert IV in Training and Assessment. She is a valued **Student Mentor**.

Student Support

Students receive excellent support from the college.

Email support is available: parijat@wellness.net.au

Phone and Skype support is available by appointment.

Optional practice opportunities are offered regularly.

Professional mentoring is included.

The Professional Kinesiology Programme (PKP)

The purpose of the Professional Kinesiology Programme (PKP) is to enhance the quality of your life and the life of others by restoring the ability to maintain physical, bio-chemical and emotional wellbeing. This is created through developing practical skills and knowledge that enable you to enhance the mind, body and spirit to allow the balanced whole person achieve wellness and their full potential.

This training is designed to provide advanced techniques in a sequential, integrated manner. Education begins with foundation material in the first year progressing to advanced skills in the second year of the Diploma. Units are segregated into sections for easy learning. Once students have completed the Australian Diploma they may continue studying Advanced International Kinesiology units via the Graduate Diploma of Kinesiopractic®.

After years of successful research the PKP format was developed to provide students with an effective progressive program, which ensures not only full theoretical comprehension, but also the practical experience needed to be successful.

Students of Kinesiology Schools Australia learn the necessary skills in their first year that all Kinesiologists need: to take care of their own energy, to muscle test, the energy pathways and body systems, to evaluate and balance energy and record results, to recognise instinctual behaviours, Anatomy & Physiology, safety in the clinic and the basic business skills needed to run a clinic.

Incorporating Supervised Student Clinics into the program assists students to complete assessment work and give ample opportunity to become proficient as a practitioner.

PKP Authors for Kinesiology Content

Dr Bruce Dewe, co-founder of the International College of Professional Kinesiology Practice, is one of the world's leading international lecturers in Kinesiology and has been a medical doctor for over 30 years. He was first introduced to Kinesiology in 1977 and has been involved and instrumental in its development ever since. Dr Dewe introduced a series of advanced skills workshops for Kinesiology in the early 1980s which then evolved into the PKP workshops and finally to an International PKP Certification Program.

Joan Dewe is a Chartered Natural Medicine Practitioner who specialised in Kinesiology . Having followed her husband Bruce into complimentary medicine she has helped develop the PKP workshops and pioneered teaching them. Initially trained as a high school teacher Joan's ability to summarise information into clear stepwise procedures has helped make PKP an easy to learn modality.

HLT52415 - Diploma in Kinesiology

The HLT52415 Diploma of Kinesiology is a two to three year professional course that is nationally accredited by:

- AKA (Australian Kinesiology Association)
- AIK (Australian Institute of Kinesiologists)

The nationally recognised Diploma in Kinesiology and the complete International Professional Kinesiology Program (PKP), are already recognised and accredited in many countries around the world and by the International College of Professional Kinesiology Practice. (ICPKP)

The **Basic Kinesiology Program (BKP)** is the Foundation training used by Kinesiology Schools Australia in the first year of the Diploma. BKP provides students with all the powerful Kinesiology techniques and protocols to give the student a great grounding as a practitioner. The first year workshops begin with the basics, providing the most solid grounding in the field and build to conclude with some powerful intermediate techniques so you can start your career while you complete your Diploma. After the first year and meeting specific conditions, you will be able to register as a level 4 Kinesiology practitioner with the AKA or Standard member with the AIK and start building your practice.

Following the BKP units we move onto EMS201 where students learn effective counselling and emotional trauma 'defusing' techniques, and then we follow on with units on energy imbalance in relation to muscles affecting pain, flexibility and strength. In the second year subjects continue to build on your skills with advanced techniques, making sure you have the best opportunity for success. Other units help with allergies and sensitivities to foods, substances and environmental issues that are increasingly becoming a problem and affecting more people every year.

Students also learn to combine Kinesiology techniques and the effectiveness of vibrational energies such as Flower essences, gems, chakras and the auric fields. Other units cover brain integration, the major muscle regions of the body, and other emotional aspects of health.

Throughout the Diploma there is plenty of practical experience gained in class activities during every unit, student clinic, expos (optional at no extra cost) and student practice times (optional at no extra cost). All this along with the supervision of your experienced teacher fine tunes your skills so you obtain the best possible results with your clients. Our graduates are amongst the best in the field and become highly sought-after practitioners.

Each Kinesiology unit consists of at least 16 class tutorial hours incorporating both theory and practical skills. **Student Assessment Journals (SAJ)** require the student to practice their newly acquired skills over 20 to 25 hours. This assists the student to gain valuable experience and confidence whilst obtaining the knowledge required. The journal is also part of the assessment and becomes an enjoyable integrated part of the program.

KSA units are nationally accredited with the industry representative bodies, the Australian Kinesiology Association (AKA) and the Australian Institute of Kinesiologists (AIK), and entitle graduates to register as a professional member.

Your Kinesiology Training includes:

Theory	Discussions
Demonstrations	Questions are encouraged
Practical Examples	Practice sessions & Assessments
Student Journal	Supervised Student Clinic
Mentoring	Tutorials

The following units, outlined below, cover all required competencies of the HLT52415 Health Training Package Diploma of Kinesiology.

Kinesiology Units

25 high quality professional Kinesiology units taught over 2-3 years

Incorporating the specialised units of Competency:

- HLTKIN001 Develop kinesiology practice
- HLTKIN002 Conduct indicator muscle monitoring
- HLTKIN003 Perform kinesiology assessments
- HLTKIN004 Provide kinesiology balances
- HLTKIN005 Monitor and evaluate client progress

The units described below are completing the competency units above.

BKP101 ENERGISERS AND SELF TESTING

The first unit is all about teaching students how to take care of and balance themselves. After all, the practitioner must stay healthy in body and mind to be able to help others. These techniques can also be used to teach clients some basic skills they can use at home to help themselves between consultations. Basic anatomical parts of the body and terminology are also learnt. Setting well worded powerful goals is the basis of a good Kinesiology balance. In this unit you will learn the skills for goal setting that will be used in every balance in the future.

BKP102 MANUAL MUSCLE TESTING

This unit introduces you to the art of muscle testing, which is the basis of Kinesiology. You learn to balance other people, using brain/muscle feedback, known as muscle testing or muscle monitoring, to identify dysfunctions and stress. You also learn how to identify and correct the most common causes of dis-organisation in the brain.

BKP103 THE 5 ELEMENTS

An introduction of Chinese philosophies to balance the energy using colour, sound and the emotions is the theme of this unit. This unit teaches techniques to correct and confirm the changes of a 5 Element balance and using food to strengthen muscles, meridians and organs.

BKP104 KINESIOLOGY AND SUPERFICIAL CONNECTIONS

Using the direction of energy flow the students learn how to balance the meridians and their related muscles and organs. Students also learn more basic Anatomy and Physiology.

BKP105 FIVE ELEMENTS IN-DEPTH

Learning the 5 Element principles in depth and working with the full chart of emotions takes you to a whole new level of knowledge. An extra 14 muscles allows you a greater variety of ways to balance the client. You will also learn how to identify and use one single correction to return the person to balance.

BKP106 PROFESSIONAL SKILLS – BALANCING PROTOCOL WITH PKP DATABASE

BKP106 brings much of what you have previously learnt together. Using the specialised protocols that set PKP Kinesiology ahead of the rest, you will learn how to use finger modes and to take the client back to balance stressful times in the past that affect them today. This is a real turning point in your training, as you gain the skills of a true practitioner.

BKP107 Pain Reduction

This unit teaches you how to evaluate and reduce pain using a number of simple but powerful techniques. This is a favourite with most students as there are always people with pain. By the end of this weekend many students no longer have the pains they have had for years. This opens a huge potential to bring clients in to your clinic.

BKP108 Balancing with Food

Focusing on nutrition this unit teaches an understanding of why the body requires a variety of nutrients and how the body uses these nutrients. We also look at a number of 'diets' and how to test the person to see if they may react to foods. By the end of this unit you will be able to balance people and help them achieve optimal nutrition for their wellbeing or whatever activity they desire.

BKP109 Advanced Muscle Techniques – Reactivity and Posture

In this unit students start to learn the first of the advanced techniques where messages from the brain are confused causing reoccurring problems. Rebalancing reactive patterns can make long lasting improvements to posture, co-ordination and wellbeing.

EMS201 Mastery of Emotional Stress Release

This unit develops skills to defuse a variety of emotional stress issues and help the client come up with answers to their problems and move forward. Techniques include active listening, challenges to authority and getting advice from your older wiser self and more importantly how and when to use each one. This is a unit all Kinesiologists need.

EMS302 Subconscious Self-Perception

Here you will learn how to find and work with the subtle messages that interfere with achieving your desired outcomes in life. These messages and automatic self-talk are known as sabotage programs, misperceptions, misunderstandings and hypnotic messages. Their effect can get stronger over time and affect our every essence. Kinesiology helps a client release these patterns safely.

ECO201 Lifestyle and Dietary Modification

This unit teaches you Kinesiology techniques relating to dietary habits and lifestyle and how to identify nutritional excess and deficiencies and when clients need to add or delete supplements, or change the way they eat. Use food and food based supplements to help balance a client.

ECO202 Immune Mismatch Responses, Allergies and Hypersensitivities

You learn various sensitivity techniques to identify and release stressful foods and substances (sensitivities and reactions). These are becoming an epidemic in our society. Learn how you can help.

ECO301 Adrenal, Geopathic and Life Energy

Completing this unit will help you increase energy, vitality and high level wellness by balancing fatigue-vitality, adrenal dysfunction and assist the client to make lifestyle changes and create a personal enhancement program.

JAF201 TMJ and Cranials

Headaches and migraines are just two symptoms caused by jaw muscles and cranial problems. You learn to reset these imbalances bringing relief to many. The cranial bones are also involved in learning difficulties, emotional stress and numerous other problems.

JAF301 Ligaments and Joints

This unit teaches advanced techniques so you can work effectively with ligament and joint injuries. Many people 'put up' with pain simply because they don't know how they can be helped. JAF301 is the answer to many of these problems.

MST201 Muscle and Skin Activation

MST201 develops skills and understanding in identifying and correcting meridian energy imbalance related to muscle circuits, skin, scars, blood chemistry, thymus and spleen energy. This variety of techniques covers a number of key areas not previously covered in other units.

MST202 Shoulder, Elbow and Hand Muscle Protocol

You will learn correction techniques to release pain, increase the function and performance of the shoulder, arm, hand and fingers. We all know people with pain and MST202, MST203 and MST301 are major units to release these pains. With this unit you will be able to help most non-surgical injuries from shoulder to finger tips.

MST203 Hip, Leg and Foot Muscles

This unit is similar to MST202 except it is for the lower extremities. You will master muscle testing and a variety of correction techniques to release pain, to increase the function and performance of the hip, leg, knee and foot. You will be able to help most non-surgical injuries from hip to toe.

MST301 Head, Neck and Trunk Protocol

The variety of muscles learnt in this unit helps you fine tune areas that are specific to Kinesiology and rarely addressed with other modalities. These are muscles of the face, eyes, throat, tongue, upper neck and the small back muscles. This can help with the very common neck pain to the more specific muscles used in singing, swallowing and speech.

PIB203 Basic Brain Integration Skills

Learning difficulties is a topic of high discussion. Kinesiology is a huge help to both adults and children with these problems. In this unit you will learn techniques related to neurological blind spots caused by fear, pain and self-doubt for learning difficulties and dyslexia.

VEF201 Flower Essences

Flower essences open up a whole new world to students. Through flower essences you learn to identify and utilize insights relating to their properties and photographic images of flowers, to re-balance mental, emotional and spiritual energy.

VEF301 Gems and other Vibrational Energy Fields

Continuing from VEF201 you will learn about the healing powers of a variety of powerful vibrational healing systems such as gems, tissue salts and homoeopathics and their use within Kinesiology.

VEF302 Metaphysical Energy Fields

In this unit you will learn how to evaluate and correct a variety of vibrational energy fields such as chakras and the auric fields that are vital in connecting our physical body to our environment which play a big part in our health and how we perform.

Supervised Student Clinic and Mentoring

This practical kinesiology unit assists students to complete assessment work as they deliver kinesiology to the general public. On completion of this unit, the student will have gained confidence and learnt to work through real life problems that they will encounter in the workplace.

There are 50 hours supervised clinic and 150 hours of mentored sessions.

Non-Kinesiology Home Study Units

Anatomy and Physiology 1 (AP1) & Pathophysiology

HLTAAP003 Analyse and respond to Client Health Information

AP1 provides a solid basis of all systems of the body. Students will have a good understanding of Anatomy & Physiology and will find this unit straight forward and to the point.

Pathophysiology follows on from AP1 teaching the student to understand pathophysiologies or changing pathologies through observation, physical assessment and analysis of other available information. In having this detailed understanding of anatomy and physiology and pathophysiology of disease you will be able to implement a problem-solving approach on how to plan, care for and manage your clients.

Clinical Safety

HLTWHS004 Manage Work Place Health and Safety - Safe Work Practices

HLTINF003 Implement and monitor infection prevention and control policies and procedures

This unit includes Workplace Health and Safety (WHS) and Infection Control. The student learns the requirements necessary to manage safe workplaces and infection control procedures for the practitioner, clients and general public.

Small Business Planning and Business Marketing

BSBSMB403 Market a Small Business

BSBSMB404 Undertake Small Business Planning

To be a great Kinesiologist is one thing but you must be able to plan and market your business. With this unit students learn to plan their business and also learn proven modern marketing skills to keep your costs down while you bring clients to your door.

Cultural Diversity

CHCDIV001 Work with diverse People

This unit describes the skills and knowledge required to work respectfully with people from diverse social and cultural groups and situations, including Aboriginal and/or Torres Strait Islander people.

Communication and Personal Reflection

CHCCOM006 Establish and manage Client Practitioner Relationships

CHCPRP003 Reflect on and improve own Professional Practice

This unit describes the skills and knowledge to establish and manage professional one-to-one relationships with clients in the context of providing an ongoing health service or intervention. The student learns the skills and knowledge required to evaluate and enhance their own practice through a process of reflection and ongoing professional development.

Legals and Ethics

CHCLEG003 Manage legal and ethical Compliance

Legals and Ethics in Kinesiology describes the skills and knowledge required to research information about compliance and ethical practice responsibilities. The student will develop and monitor policies and procedures to meet those responsibilities.

Nutrition & Recommending Health and Nutritional Products

HLTHPS010 Interpret and use information about Nutrition and Diet

SIRXPDK003 Advise on products and services

This two part unit teaches the student to interpret and use basic information about nutritional principles and healthy diet. Students also learn to safely recommend and provide advice on health and nutritional products and services to customers.

Mental Health

CHCMHS001 Work with People with Mental Health Issues

This unit has been designed to help educate you and give you the skills and knowledge to establish relationships, clarify needs and work collaboratively with people who are living with mental health issues.

Research

CHCPOL003 Research and apply Evidence to your Practice

This unit teaches you the skills required to gather information of a research nature and critically analyse the information for relevance to your work as a Kinesiologist.

Provide First Aid

HLTAID003 Provide First Aid

First Aid is a requirement of all health practitioners. It is the equivalent of the Senior First Aid.

This is an External Unit to be completed by the student at any stage. This unit is not supplied by KSA and is not included in course price.

Duration & Amount of Training

The volume of learning of a Diploma is typically 1 – 2 years or 1,200 - 2,400 hours

Byron KSA offer the Diploma over 2 - 2.5 years. The program is delivered full-time over a period of 100 weeks (including home study units). Students may extend the time to complete the Diploma and may need to complete that at a different KSA Campus.

The amount of training provided includes:

900	hours of kinesiology course material
50	hours of supervised clinic
150	hours of mentored clinic activities (log book)
<u>960</u>	hours of self-paced workbooks

Total: 2,260 hours

The course structure and delivery plan has been developed to enhance the students' personal and professional development, maximising the volume of learning and creating opportunities for students to develop their own business as they study.

Course Includes

- High quality experienced lecturers
- Professional practical knowledge and skills
- Manuals and Journals
- Licenses with the International College of Professional Kinesiology Practice
- All assessments (includes 1 free re-sit of practical assessment)
- Mentoring case studies and sessions done in your home clinic
- Class tutoring
- Morning and afternoon tea
- A qualification recognized by the Australian National Training Framework
- A friendly smile and happy atmosphere
- Personal growth
- Graduation
- Supervised Practice
- Phone, Facebook, email and zoom contact with the school

Investment/Course Costs

Course Payments 2022 - Byron Bay KSA Campus

PLEASE NOTE: Enrolment will not be accepted unless payment accompanies application form.

Cash / Cheque / Direct Deposit / Internet Banking (please circle)

Option 1, Pay \$21,000, Save \$600

2000 Plan - available only when course starts

Deposit \$3,000, 9 payments of \$2,000 bi-monthly

Option 2, pay \$21,600

600 Plan

Deposit \$1,800, 33 payments of \$600.

Please direct any queries to Veda Turner - 02 6685 7991 or byronkinesiology@gmail.com

Payments can be made by:

Cheque:

Payable to 'Kinesiology Schools Australia' 28 Seaview Street, Byron Bay, NSW 2481

Direct Deposit: Commonwealth Bank of Australia - BSB: 064124, Account No: 10211194
please advise teller to state your name as reference.

Internet Banking:

Kinesiology Schools Australia, BSB: 064124, Account No: 10211194

please note your name as reference or call us for an invoice number.

Note 1 #: **Senior First Aid** is NOT included in the price. First Aid can be taken with any Registered Training Organisation authorized as a First Aid provider. First Aid is required before you can begin your Mentored Home Clinic

Note 2 #: Fees paid in advance cannot be transferred to another college or campus.

Note 3 #: Other Expenses, not included in your fees:

- A massage table is recommended by BKP103
- you are recommended to have 5 personal sessions with an ICPKP Diploma graduate.
- Wall charts and test kits
- You are required to set up a home clinic or access a room for Mentored Home Clinic from BKP107
- A textbook is required for:
 - Anatomy & Physiology
 - Nutrition

Note 4 #: All late payments may incur an administration fee of \$15 per infringement.

Note 5 #: Classes will commence or continue subject to numbers

Note 6#: If your payments go over 3 years, the school is delivering classes ahead of payments. Should you need to stop your training, you will be liable for all courses and materials delivered to you.

Diploma in Kinesiology 2021 First Year Schedule

UNIT	2022 Dates
BKP 101 Energisers and self-care	26-27 February
BKP 102 Manual muscle testing	19-20 March
BKP 103 Five elements and Yin balancing	9-10 April
BKP 104 Superficial connections	7-8 May
BKP 105 Five elements in depth	28-29 May
BKP 106 Professional Protocol	18-19 June
BKP 107 Pain Reduction	9-10 July
BKP 108 Balancing with food	30-31 July
BKP 109 Reactivity and Posture	1-2 October
EMS 201 Emotional release	22-23 October

*Tutorials will also be offered throughout the year.

Please Note: Dates Could Change

Free Kinesiology Experience Sat 5 February

For those going onto Diploma:

MST 201 12 – 13 November

VEF 201 3 – 4 December

For Pathways

Upon completion of this qualification, learners can:

- Register as a Professional Member with the Australian Institute of Kinesiologists and/or the Australian Kinesiology Association as a Registered Kinesiology Professional Practitioner and
- Participate in Continued Professional Kinesiology Training at an advanced level.

Recognition of Prior Learning (RPL)

Recognition of prior learning (RPL) is an assessment process that assesses the skills and knowledge you have already acquired through formal and informal learning. The RPL process determines the extent to which you have already met the requirements for each unit of competency specified in the HLT52415 Diploma of Kinesiology qualification. Learners are able to have their competency from prior learning and work experience recognised in this qualification should they meet the following criteria:

RULES OF EVIDENCE

- **Validity:** The KSA assessor must be assured that the learner has the skills, knowledge and attributes as described in the module or unit of competency and associated assessment requirements. This means you have covered EVERY requirement included in the Unit of Competency. Where you have some, but not all requirements, KSA may be able to offer you Gap Training. This may reduce the amount of study you need to do to complete the qualification.
- **Sufficiency:** The KSA assessor is assured that the quality, quantity and relevance of the assessment evidence enables a judgement to be made of a learner's competency.
- **Authenticity:** The KSA assessor is assured that the evidence presented for assessment is the learner's own work. This means we may need to contact your previous trainers, workplaces, referees etc to confirm you have accurately described your experiences.
- **Currency:** The KSA assessor is assured that the assessment evidence demonstrates current competency. This requires the assessment evidence to be from the present or the very recent past.

KSA will discuss your eligibility for RPL at your Pre-enrolment interview. You can assist the process by having all the information available during your interview (including any course codes). Once we have identified any units you may be eligible for RPL, you are required to fill in the RPL documents available at <http://www.kinesiologyschoolsaustralia.com.au/rpl-info/>

You are also required to provide the necessary evidence and documentation support your RPL application. Your trainer will be able to offer you suggestions based on your individual circumstances. Applications for RPL will be assessed on an individual basis and a fee will be incurred. It is the responsibility of the student to compile the evidence required prior to enrolment.

CREDIT TRANSFER

KSA accepts and provides credit to learners for units of competency where these are evidenced by AQF certification documentation issued by any other RTO or AQF authorised issuing organisation, or authenticated VET transcripts issued by the Registrar.

Students may apply for credit transfer on enrolment.

ASSESSMENT

KSA is committed to an assessment system that ensures that assessment both complies with the assessment requirements of the training package, and is conducted in accordance with the Principles of Assessment (Fairness, Flexibility, Validity and Reliability) and the Rules of Evidence (Validity, Sufficiency, Authenticity and Currency).

KSA's Supervised Student Clinic fully replicates the work place as close as possible. Supervised Student Clinic mirrors the time frames of appointments and the resources available to the practitioner in the workplace. The student clinic is open to members of the public and provides students with a variety of clients seeking support or healing through the Kinesiology Process and a complexity of issues.

The following Assessments are required:

- Written Responses
- Observation Checklists/Practical Activities
- Practical Demonstration in a simulated workplace environment
- Written Reports and Case Studies
- A research Project

AUTHENTICITY OF STUDENT WORK

Students must assure KSA of the authenticity and authorship of their assessment work. Students must sign declaration stating the work is their own on the cover sheet submitted with their assessment.

REFUND POLICY

Entitlement to Refund

Students **may be** entitled to a refund of course fees depending on when the application for withdrawal is received and the circumstances prompting a withdrawal. The student is not entitled to a refund on any course material received prior to the student withdrawing. Students are required to put any request for extensions, withdrawals, deferment and any refunds of course fees in writing.

Where a refund application is received ...	Students will receive ...
More than 21 days prior to the commencement of the course	A refund of the fees paid less a \$300 non-refundable deposit and any home-study or course material received.
Less than 21 days prior to the first day of the course	A refund of the fees paid less a \$300 non-refundable deposit and any home-study or course material received. An additional administration fee of \$500 may be charged.

Deferment

A student may defer their enrolment to a course offered at a later date. The request for the change must be made in writing and must be received at least ten working days prior to the commencement of the original enrolled course. If the deferment takes place into a new calendar year a data base fee is payable and an administration fee may be charged.

Attendance at Repeat Classes

Students are able to attend courses they have missed within 12 months or when next offered to finalise incomplete competencies. Your college may offer you one free repeat.

Students repeating extra units and classes after more than one year will be charged a repeaters fee.

Withdrawal after Commencement of Training

Once training has commenced for the course, no refund is available to students who leave before the completion of the course. Students who pay by monthly installments have enrolled for the full course and come under the same refund policy. They will be liable for the full course fee.

Exception: Students have the option to withdraw after the first unit, if they feel that this training is not right for them, under the same conditions referred to in the refund policy. Students who have certified medical reasons or personal hardship may apply to KSA for special consideration. If application is accepted, KSA will consider refunding a portion of the course fee in relation to those components of training that have not been started by the student, less an administration fee.

Cancellation of Course

Should the RTO cancel a course, students are entitled to:

- a refund of fees for the home study units not yet received or workshops not attended
- transfer of funds to another future course, or
- transfer of funds to another KSA campus or affiliated college

In this event, students will be given their preferred option.

Post-graduate Kinesiology Training

The Professional Kinesiology Diploma Programme™, taught by Kinesiology Schools Australia offers the most comprehensive, student-centered training in Kinesiology worldwide. The Diploma is accredited with both Australian Kinesiology Associations (AKA and AIK).

Postgraduate studies cover 11 advanced streams of Kinesiology. These units are only available to students who have completed the Diploma. Graduates can choose to study all or some of these advanced units. We recommend all the units to truly become an expert in the field.

The Complete Professional Kinesiology Programme™ as the name implies is the complete Professional Kinesiology Programme written by Dr Bruce and Joan Dewe and is accredited by the International College of Professional Kinesiology Practice.

Students qualifying for the ICPKP International Post Graduate Diploma of Kinesiopractic® will be sought after practitioners. The extra units take Diploma graduates from very good, knowledgeable, and experienced practitioners to the highest level of training available in Kinesiology.

These units can be used towards CPE (continued professional education) points required by all professional health industry bodies. The techniques in these units are advanced techniques that quickly provide positive and effective results.

Some advanced topics covered:

- Learning Difficulties
- Emotional Anatomy and Intelligence
- Increasing emotional wellbeing
- Trigger points and hypertonic muscles

- Pelvis and the pelvic muscles
- Lymphatic and digestive systems
- Advanced meridian techniques
- Adrenals and vitality

Testimonials

From my very first interaction with the school, watching a demonstration by Parijat at the Starlight Festival, I knew that studying Kinesiology would be an incredible experience. The teachers and support are kind, well organized, knowledgeable and so generous. The location is idyllic, the classroom well-equipped and meets all my learning needs. Even when we were studying from home this year, we were kept informed, encouraged and supported . – S R

'The support we receive from the school is incredible, learning a new concept can be very overwhelming, but the support and guidance that the teachers provide along every step of the way makes it feel so much easier. It's a beautiful environment to learn in and feels like home.' – T S

'I am thoroughly enjoying my intro to Kinesiology...from knowing very little about the processes involved, I feel I have now progressed so far that I am confident of my knowledge of everything learnt...as well as my ability to work with clients as a trained Kinesiology practitioner.' – A W

'Being able to study the Diploma course has realised my dream of having a fulfilling career and job that I am passionate about. The course is set out in such a manner that you learn to be a professional from the beginning. It is so rewarding to be able to help people reach their full potential' -

'Kinesiology has enabled me to improve my life on so many levels...not only did I meet and make friends with an amazing group of teachers and fellow students, but also discovered many processes to enable the body achieve a high level of wellness. I use what I have learnt to enhance my life in all areas, and enjoy watching friends, family and clients enhance their lives through kinesiology. This truly has been a life-changing course for me and if you are attracted to it - I suggest you follow your instincts and go for it. I did and it has been well worth it.' - S

'This program is the best I've seen. The structure of teaching creates an optimal environment of learning and discovery, and it is a joy to be a part of something so fantastic. I am privileged to be a part of something so profound.' – B I

'Studying Kinesiology in Byron is like being a part of a family. The love, support and guidance you receive makes learning so much easier' – B B

'I can't emphasize enough the importance of the learning environment that you provide for students at your campus. I've experienced a variety of education formats over the years, from private schools to private short courses. I can honestly say that I've never learned in such a profoundly encouraging, nurturing and positive environment before, and the belief I have in myself as a result of that is something I didn't anticipate. So now that I have it, I'm owning it, and that's a real gift as I move further into my study, and embrace it in all areas of my life. Thank you from the bottom of my heart' - C Y.
