411 SUITE
LANGFORD BIFOLD
WINDOW

Our high performance top hung Bifold window can open up an entire wall in your home, making it an excellent choice for connecting the indoors to the outdoors.

PRODUCT FEATURES

Custom made sizes to suit your requirements. The architectural frame gives the window a high wind and water rating.

Top hung rollers offer a smooth motion when opening and closing the doors.

A large variety of combinations are available, stacking in either direction or bi-parting. These windows can be screened using Centor retractable screens.

They are designed to carry a variety of glass types for sound and temperature control, including double glazed.

All windows come with a variety of lock options and hardware colours including stainless steel or colour match powdercoat.

The sills can be recessed into the floor to create a seamless flow from inside to out.

For further information please contact the office
