

618 SUITE  
LANGFORD SLING  
AND STACKING  
DOORS

The Langford magnum sliding and stacking doors are a high performance architectural door available in a range of configurations. The neat square profile makes this a popular chose for home owners.

## PRODUCT FEATURES

Custom made sizes to suit your requirements. The architectural frame gives the door a high wind and water rating. A large variety of combinations are available including 4 door (1 fixed 3 sliding), cavity sliding and corner opening without a center post.

These doors are easily flyscreened with stacking screens or Centor retractable screens. They are designed to carry a variety of glass types for sound and temperature control, including double glazed.

All doors come with key locks as standard with a variety of lock options and hardware colours including stainless steel or colour match powdercoat and recess options.

The sills can be recessed into the floor to create a seamless flow from inside to out.
