

**CORNER OPENING
SLIDING, STACKING
AND BIFOLDING
DOORS**

Eliminating the need for a corner post, these doors open up a space and can connect two areas together into one large entertaining space.

PRODUCT FEATURES

90° corner opening doors connect two areas together creating one large space to entertain. When fully open they provide unobstructed views and access.

These doors are available in custom made sizes. They can be made in either a sliding, stacking or bifolding configuration with multiple panel options available. Recessing your sills creates a seamless flow from inside to out.

Sliding and stacking doors can be flyscreened, and can incorporate cavity sliding and stacking doors as well.

All doors come with key locks as standard with a variety of lock options and hardware colours including stainless steel or colour match powdercoat and recess options.
