

Cleaning your Polymer Splashback

DO:

- Wash with warm soapy water & soft cameo.
- With warm clean water rinse the residue off your polymer splashback with a soft cameo
- When soapy residue is removed, wipe your polymer splashback with a warm/hot damp cloth.
- Your Polymer splashback will air dry and shine.

DO NOT:

- Do not use scourers or harsh cleaning agents like cream cleansers or acidic agents, bleach, acetone, windex etc.
- Do not dry polish you polymer splashack, only wipe with clean damp cloth. Your polymer splashback will air dry and shine
