Our Capabilities

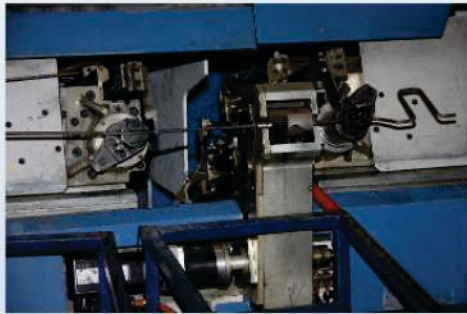

As one of Australia's biggest wire component manufacturers, we offer our customers the largest range of machines to meet their needs.

We operate a wide range of CNC and mechanical wire and strip forming equipment. These machines are complemented by robotic welders, wire straightening and cutting machines, pedestal welders, 2D and 3D CNC machines, special purpose welding and nylon coating equipment.

Our wide range of experience and specialist in-house technology allows us to manage low, medium and high volume projects.

We are a preferred manufacturer of high volume components in the following areas:

- automotive components
- building & construction consumables and wire
- agricultural stakes, clips and growth tools, and
- shop fitting display components
