

Provide the convenience of cash at your next event!

We supply ATMs either on a trailer or a stand alone unit depending on the size of your event and your requirements.

These days, there is an expectation that people will be able access their cash at their convenience, no matter where they are. With an easily accessible ATM you are making it easier for visitors to spend money at your event!

Why have an ATM at your event?

- Don't risk losing visitors who leave your event to find cash.
- EFTPOS costs you money to process. If you're running the bar, merchandising or food stalls, eliminate this cost and stick to cash transactions.
- Keep visitors at your event. Most people turn up with money, we provide the additional cash to make sure they stay and spend more at your event.

Why choose ATM2GO?

- Well recognised event ATM brand.
- Clear and effective promotional material to ensure we are easy to find in a crowded event with a marquee, feather banner and a-frame signage.
- Our local franchisees provide a personalised efficient service and after the event we will let you know the number of transactions and the amount of cash that was withdrawn.

MORE QUESTIONS?

If you have more questions about how an ATM can benefit your event don't hesitate to call us today!
