CASH SOLUTIONS FOR EVENTS AND BUSINESSES

TRITON ARGO 7 ATM

The smaller version of the ARGO 12 is ideal when space is an issue. This single cassette machine has the same EMV card reader, bright screen, electronic lock, and a UL291 rated safe. All this and it's only 145cm H x 46cm W x 50cm D.

WHY HAVE AN ATM?

Eliminate the time and expense of processing EFTPOS transactions. It's much quicker to process a cash transaction and there's no fee to pay for the privilege of your patrons spending money with you. Tap and Go is the silent killer for a number of businesses as these transactions are processed as credit card transactions, which increases the processing cost. Dig out your last EFTPOS statement and find out the real cost of providing this service to your patrons!

In addition to eliminating your EFTPOS fees, we pay you to provide this great service to your patrons in the form of rebates for successful transactions. So you'll save money and make money

Your customers receive a receipt with their ATM transaction, so there's no disputing what money patrons requested and received. Unsuccessful transactions due to wrong pin numbers or insufficient funds can't be argued as it's printed on the receipt.

Your patrons also have the convenience of being able to do a balance enquiry just in case they are not sure how much money they have to access.

WHY CHOOSE ATM2GO?

- ✓ Locally owned and operated.
- ✓ 24/7 support with a Tech Desk, not just a help desk! Trained technicians are on call to help you with any issues you have with your ATM.
- ✓ We have invested in quality machinery up front to eliminate issues down the track.
- ✓ We have stock on hand so there are no delays in getting your equipment to you and we stock spare parts for the quick resolution of any unexpected issues.
