CO-CURRICULAR NEWS

It gives us great pleasure to share the success of the Junior Campus boys (Years 4-7) at the recent Catholic Schools Athletics Carnival at Santos Stadium on Monday of this week.

We were victorious for the fifth year in a row and retained the Geoff Skein Memorial Trophy for the winning school. This result however, was particularly special;

- We no longer have a massive team (as in the 'old days') so it is important to note that ALL placings and results by ALL boys counted toward the team result.
- Thus, when compared to other schools, our small team certainly were up against it all day!
- We did not have one age champion throughout the day – thus our victory was a true 'team effort' and a credit to the boys and staff involved.

I'm sure the boys would acknowledge the great leadership of Mr Michael Hingston and also Br Michael Coughlin who prepared our team for the event via countless 'extra' sessions before school and during break times as well. In addition, the College also acknowledges and thanks committed parents, Mr John Pertl and Ms Angela Rees (mother of Jack Piasente in Year 5), for their contribution and support on the day of the carnival at Santos Stadium.

Please join with the College in congratulating the boys and those involved for this outstanding achievement.

2016 SY, MY & JY SUMMER & WINTER CO-CURRICULAR PHOTOS

Our sincere apology for the delay in distributing orders of the 2016 Co-curricular photos to families. Our new development staff and new school photographer have been working through the delays to ensure that a smoother transaction can take place in future for all involved.

In particular, we apologise that the March Junior Years Summer Co-curricular photos are still outstanding. The College staff are close to finalising these and will forward on to our school photographer, Vanessa Size Photography shortly. This will allow for printing and distribution shortly after.

This also acts as a timely reminder to our community members who volunteer as Coaches, that your support in reviewing the proofs and identifying absent students in a timely manner is vital in ensuring the quickest turnaround time for families. We appreciate your support and consideration of this matter.
