

ROSTREVOR
COLLEGE

First XI Cricket, The First XI will be back in action this weekend against PAC.

CO-CURRICULAR NEWS

Dear College Community,

This week sparks the return to summer co-curricular activities and although the weather suggests otherwise, warmer weather signals the return of badminton, cricket, tennis, volleyball and waterpolo. I have provided previous reminders to students about the need to honor their commitment to their term 1 sport so as to avoid leaving teams unable to compete with a full complement of players and have been pleased to see boys at training this week.

Sport Program: Middle and Senior school sporting competitions begin this weekend. The program is available for access on the Rostrevor College website under Boys Education – CoCurricular -Fixtures and Maps. The majority of teams have 6 weeks of competition with some senior teams concluding after 5 weeks and a number of teams provided a bye during exeat weekends and spring fair.

Away Venues: When your son has a scheduled away match, he is required to seek a map to the ground which will be available on-line from the Rostrevor website under co-curricular. Schools do not always play on their actual grounds and therefore it is important to check where the match is being played. I will endeavor to make these maps available by Wednesday of the upcoming weekend at the latest but am reliant upon the opposing school to forward this information.

Expectations: The College continues to adopt the policy that students play for the school as their first priority, if the activity is offered by the school. Students are free to participate in activities outside of the College, as long as they do not interfere with their involvement in the College co-curricular program. Students who have nominated for an activity are expected to attend all training sessions and games. Our nominations to SAAS are based on the number of students who select each activity and therefore it is inappropriate for a student to decide that he no longer wishes to do the activity or would prefer to do another, without the approval of the Head of Co-curricular.

Student Availability: Students are expected to make themselves available for all matches indicated in the program. Where a student does require exemption from a weekend fixture, he should ask his coach as early as possible, and by the Wednesday preceding the game, at the latest. If an unexpected illness or problem occurs on Friday night or Saturday morning, students must get a message to their coach to avoid consequences. All teachers are contactable via email and contact with outside coaches such as old scholars and parents should be discussed at training or games.

Uniforms: The school expects all students to be dressed appropriately for the activity they are undertaking. It is the parents' responsibility to ensure that their son(s) have and wear the correct uniform for both practice and matches. If you have any questions about what is expected, please contact the Uniform Shop.

Communication: Our Co-Curricular program is very extensive and occasionally things will not go entirely to plan. Please contact me if a problem arises and we can work to resolve the issue before it becomes a major concern. I will be equally happy to hear from you when things go well.

Cancellations: Middle and senior school training will be cancelled if the forecast temperature is 38 degrees or greater. Junior school training will be cancelled if the forecast temperature is 35 degrees or greater. Weekend games will be cancelled on the Friday if the forecast temperature is 38 degrees or greater.

All game cancellations are communicated through the Rostrevor College website under co-curricular.
