

# recycle right

**At EcoGroup, we're all about recycling right.**

We proudly spearheaded the sustainable demolition industry in Australia. Using ground breaking technologies we provide innovative services including demolition, excavation and site remediation.

EcoGroup are the leading supplier of recycled bricks, pavers, crushed brick, briquettes and mulch.

We are on a mission to transform the demolition, construction, and landscaping industries by providing a green alternative.

At the core of everything we do, lies a deep commitment to sustainability. By maximising salvageable materials and minimising the waste that goes to landfill, we're preserving the environment for generations to come.

# recycled landscaping products

# landscaping products

## Bricks and Pavers:

Our range includes: Builder's Bricks, Rustic Reds, Red Face and Pavers, Cream Face and Pavers, Clinkers (red/blues), Cream Blues, Handmade Apricot and Blends, Hawthorn Blacks/Browns, Fire Bricks, Shapes and Bluestone Pitchers.

## Mulch:

Our mulch is made from 100% recycled timber. Mulch is great for gardens as it improves moisture retention and aids in weed control. Ecogroup's mulch is well seasoned and long lasting; it also has high density, which means it will not blow away.

Mulch is available for purchase by the cubic meter.

## Crushed Bricks:

Red crushed brick is a richly coloured high end landscaping product made of 100% recycled bricks. The crushed brick compacts to a smooth yet permeable surface allowing water to seep into the earth with no chemical effect on the soil. It is a clean product which will not fade or discolour. The red crushed brick will suit many design applications.

## Briquettes:

EcoGroup's briquettes are made from 100% recycled timber, salvaged from demolition sites. They are compact to transport, easy to light and easy to use. Our briquettes offer a long clean burn, with little residue and are suitable for a variety of burner and heating systems.
