## VISION

In the light of La Sallian educational spirit, we believe in the proper development of the students to form their personality (spiritually, morally, socially, and educationally) to make them best and useful citizens of the future as to perform their duties at individual, family, national and international levels.

## MISSION

To give the students such opportunities that they may utilize their creative and hidden potentials. To train teachers professionally in the light of modern teaching methodology, needs and trends. To create a spiritual and social atmosphere conducive to cooperation and love. To create sense of responsibility among the students to prepare them for future life.

To build healthy and positive teacher-student relationship.

To develop leadership qualities in the students based on curricular and co-curricular activities.

To make student think globally and broaden their vision by celebrating national and international events.

Education is considered to be the core instrument of human development and its aim is to promote excellence in all spheres of life of the children. La Salle High School Campus 2 is providing the harmonious development of the intellectual, physical, social, moral and spiritual faculties of the children by introducing, guiding, leading and confronting them with challenges and responsibilities from an early age. At the heart of our La Salle High School Campus 2 is a core of shared values which reflect our ethos and which permeates everything we do. These values foster high standards of behavior and achievement, support a framework of respect, promote self-confidence and provide a warm environment in which our children learn and thrive.

As we enter the in new session of 2018-2019 school year children must come to school regularly and work hard from the beginning. Over the years we have built a tradition of excellence in the community. We take pride in being a school where every student can find an avenue for success.

We are proud of all of the academic opportunities we offer our students, with strong core academic programs as well as outstanding elective programs. We also have athletic programs with a tradition of success and a fine performing arts program that is second to none. We have a kind, caring and highly-qualified staff who truly believes that every one of their students will succeed.

## Spiritual Nourishment

## Teaching with Phonics

### Student Message

**Fauzaan Fareed**  
(9<sup>th</sup> B)

Education is a basic need and the right of each and every person. I am blessed to study under the guidance of highly qualified and dedicated teachers at my school. I think education doesn't provide us knowledge only but it also teaches us the values to be a good citizen of our society.

Parent's visit to school plays a vital role in the formation of the students. Regular parent's visit to school is very important. This visit is just like the work of a good gardener who waters the plants and takes care of them. It benefits the child if both the teachers and parents are working together, staying in touch with each other to find out how the child is doing. It is true that family's engagement improves the achievements. Therefore we encourage all the parents to take an active role in their child's education.
