Why choose Premier Shades for your Folding Arm Awnings?

- ✓ Established over 20 years – if something goes wrong, we are around to fix it.
- ✓ We offer a no fuss warranty and back up service – in writing.
- ✓ We have correct insurances, police checks and abide by the consumer law and the industry code of ethics.
- ✓ We are the local experts in Folding Arm Awnings and have been selling them on the Central Coast for over 20 years.
- ✓ We offer no interest ever finance via Humm Finance, and take Visa, Mastercard and American Express with no fees.
- ✓ We give firm lead times in writing and update immediately if things change.
- ✓ We have the Central Coasts largest blind, awning and Plantation Shutter showroom. We have Folding Arm Awnings on display and operational.
- ✓ You can trust your Folding Arm Awnings with Premier Shades. We are a local company and only deal with reputable companies that supply Australian and quality imported Folding Arm Awnings. We carry spare parts and have a trained service team of industry professionals.
- ✓ We can show you loads of photos of past jobs or put you in touch with a past client if you like. Check out our customer review page for past happy customers.
- ✓ Premier Shades is an independent business and not locked into any one brand or material. They will discuss your needs and work out what Folding Arm Awning or Retractable Roof System is best for you.

Frequently Asked Questions

What fabric can I have?

A The Premier Shades Folding Arm Awning range is a custom-made range. It will be made to your exact measurements to suit your home with YOUR choice of fabric and frame colour. At Premier Shades we have a huge range of fabrics to choose from. Swatches are available to view in our showroom or in your home. Alternatively, we can organize to post a range of sample fabrics to you.

Can I motorise a Folding Arm Awning?

A Definitely. Premier Shades are Gold Licensed Somfy Motorisation expert. We specialise in the world leading Somfy motor system. This system can be automated via your smart phone and Wi-Fi devices.

Do you have waterproof fabric?

A We have a huge range of 100% solution dyed acrylic fabric which are water, mildew and rot resistant. Gentle rain will bead and roll off the fabric.

We also have the premium range of Nautica fabric which are waterproof. The fabric we use; for example, Docril are coated with Dupont Teflon and have exceptional resistance to water, high temperatures, chemical reaction, corrosion and stress cracking.

How wide can a Folding Arm awning go?

A Maximum width of 7000mm (7 metres) and a minimum of 2080 (2.08m)

Projection is a maximum of 4000mm (4 metres) and a minimum of 1500mm (1.5m)

It is possible to butt two Folding Arm Awnings together to get wider coverage. The longer the projection and the pitch, the more it may drop at the front. When Premier Shades do an onsite measure and quote, we will look at fixing points and consult with you on the best solution.

How does it go in the wind?

A Premier Shades Folding Arm Awnings are predominately used for Sun protection. They are not designed for strong wind of greater than 50km an hour. If you are concerned about the wind in your area, consider getting one of our Somfy sensors. A motion sensor will detect when the wind is too extreme and automatically put a motorised folding arm awning away in its cradle.

How do I clean?

A Remove sea salt, dust, bird poo and ingrained dirt from the fabrics and components with a gentle hosing. Never use soap, bleach, solvents or cleaning fluids as they may damage the coating on the fabric. It is best to clean on a sunny day as its important to never roll the fabric away wet.
