Organic
Medium & Large, Old Brass

Organic Collection

The Organic collection features a characteristic contour in its form. Energetic and asymmetrical, each glass shade is individually mouth-blown and hand formed to give it a unique shape - no two pendants are ever the same.

The way that light beams through the contours of each different glass surface provides a thrilling light diffusion.

Presents beautifully as an individual piece or can be used within a cluster arrangement to form an elegant and unique feature.

Shadow Collection

The Shadow Collection is a superb architectural addition to any contemporary space. Shadow Wall Light adorns its form as it lights up celestially. The diffused light exerts a halo-like illumination from behind the flat sphere shade to create soft and comfortable light.

For spaces that require minimal decor, Shadow is the perfect way to captivate soft lighting within any space. Like the Orb Collection, Shadow's glowing illumination lightens not just the room but the mood.

Dover Lantern

Dover Collection

The Dover Collection features a timeless and universal design that brings a sense of modernity to what would be considered a traditional lantern style of lighting.

The Dover Collection's large scale and Old Bronze finish elicit robust characteristics. This is then contrasted by the airiness that is seen in the spaciousness within the shade. The delicateness from diffusion of the light becomes the focal point of this substantial collection.

Lille Collection

The Lille Collection was inspired by traditional wall and pendant lights but puts a modern spin on this recognisable design. A contemporary interpretation of boxed lighting, the Lille collection is bold yet ambrosial with an Industrial allure.

The archetypal design of this collection leans towards a contemporary motif as seen by the Industrial-style brass finish. The bold lines seen in this design have been counteracted by soft curves. Strong and sturdy in its construction yet refined and versatile for a variety of spaces.
