

RELIABLE I.T. BACKUPS FOR CLOUD-BASED BUSINESS DATA

Eliminate data loss concerns in cloud computing

Losing data is like losing your currency. Moving to the cloud (e.g. Office 365, Google) brings many benefits to a business, but threats to data security still loom in different forms, which must be guarded against or eliminated.

...and remember, SharePoint, OneDrive or Dropbox are not a means of backup.

IMAGINE ONE OR MORE OF THESE OCCURRING?

- An employee deliberately deletes files or email history
- Accidental deletion of a critical emails or files
- Ransomware encrypts your data
- Your password protocols are weak, a hacker has gained access to the cloud account
- A major event occurs at the server base, causing loss or corruption of your data

Loyal I.T. Solutions has over 15 years' experience of providing Central Coast businesses with reliable, professional and loyal I.T. hardware, software and support. Give us a call for a no obligations chat about how we can work together to help you achieve your business goals. Our team is waiting for your call.

Your current I.T. equipment slowing you down? Get in contact with us to review your options.
