Effect of Air purity Touch

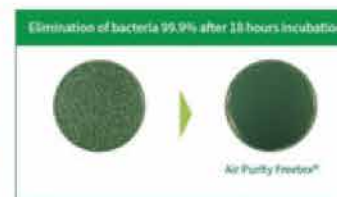

■ Effect of Air purity Touch

- ◀ When the germs contact with Airpurity Touch, the nucleus of germs are destroyed.
- Various harmful bacteria make oxidation reaction with inorganic substances on the surface of non-woven fabric.
 - It prevents the bacterial cell membrane formation and cell growth.
 - It destroys the bacterial cell membrane, and results in cell lysis.
 - It changes in cell membrane components such as proteins and lipids to decrease the function of cell membranes.
 - It prevents cell membrane physiological metabolism from inducing changes in nucleic acids, enzymes, and so on.
