

• Easier • Faster • Safer

Get an immediate ROI with simultaneous improvement in both productivity and safety.

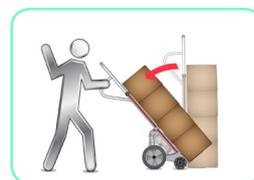

## Rotatruck® vs. Handtruck

### Leverage Plus™

The smaller Rotacaster wheel at the front gives the Rotatruck greater leverage than traditional 2-wheelers, making it easier to pull back, park, lever and balance loads.

**More leverage, less effort**

**32% less pull-back effort**  
**55% less general handling effort**

**Easier pull-back effort** & no need to park at waypoints.

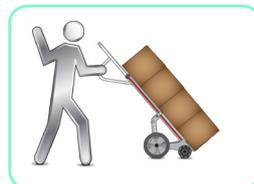

Parking and pulling back loads at waypoints increases strain on musculoskeletal structure.

### Hands Free Balance™

The Rotatruck's compact, multi-directional wheel base fully supports loads without operator input. No need to park or pull back loads as frequently.

**Just push, don't carry**

**0kg load to carry**

The Rotatruck carries the load, not the operator.

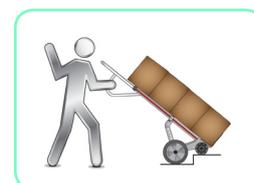

Constant operator input to maintain load balance exerting strain and effort.

### Magic Step Up™

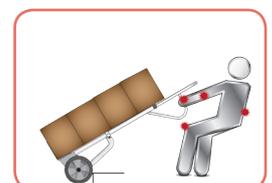

The fixed orientation of the Rotacaster wheel allows you to step and lever loads instead of turning and reversing (over obstacles), with 78% less effort and 63% faster.

**Lever, don't lift**

**78% less lifting effort**  
**63% faster negotiating kerbs**

Up kerbs or over obstructions without reversing.

Maximum effort required to reverse and pull load up a kerb.

The Keg Rotatruck™ is the easiest, quickest and safest way to handle kegs, barrels and other heavy items often found in the hospitality industry. Its ergonomic design minimises repetitive pull back, bending and user effort.

Keg Rotatruck with 4x4 RC Wheel base

Keg Rotatruck with AT wheel base

## PRODUCT CODES:

### AT Wheel Base: 11-23AT-0830R3/50

Load Capacity: 200kg

#### COMPONENTS AT Wheel Base

- Curved aluminium frame
- Loop handle
- 2x 125mm R3 Rotacaster™ wheels and
- 250mm foam filled rear wheels

### 4x4 RC Wheel base: 11-23RC-R3/50

Load Capacity: 200kg

#### COMPONENTS 4x4RC Wheel Base

- Curved aluminium frame
- Loop handle
- 4x 125mm R3 Rotacaster™ wheels

## Self Supporting Wheel Base

Self-supporting **multi-directional** Rotatrucks™ are based on a **highly manoeuvrable** four wheeled base.

## Wheel Base Options

**Alternative 4x4RC Wheel Base** for direct sideways movement in confined, narrow spaces like cellars or cool rooms without turning and swivelling.

## Curved Frame

The Curved Frame **secures the load** and prevents curved items like kegs or barrels from rolling over the side.

## Optional Keg Hook

Optional Keg Hook slides vertically to **secure** kegs, barrels, drums or containers when truck is in the **upright 2-wheel position**.

## Kick Stand

Integrated kickstand **holds the Rotatruck in an upright position** when loading, or when load is not present
