SAFETY DATA SHEET
MP101 Extra Fine White Filler

1. Identification

1.1 Identification of the substance or preparation:
Product Name: MP101 - Metal Plastic Extra Fine Filler

1.2 Use of substance or preparation:
Sealant/Filler

1.3 Company undertaking identification:
Fixtech Pty Ltd – Fixtech Marine Solutions
Unit 1/20 Export Drive
Molendinar, Queensland 4214
Tel.: +61 7 5530 1099
Fax: +61 7 5530 1322
Email: info@fixtech.com.au

1.4 Emergency telephone:
+61 7 5530 1099

2. Composition/information on ingredients

Chemical Characterisation: Mixture
Description: Mixture of substances listed below with nonhazardous additions

<table>
<thead>
<tr>
<th>Hazardous Components:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>100-42-5 Styrene Monomer</td>
<td>&lt;12.5%</td>
</tr>
<tr>
<td>Flam. Liq. 3, H226; Acute Tox. 4, H332; Skin Irrit. 2, H315; Eye Irrit. 2A, H319</td>
<td></td>
</tr>
</tbody>
</table>

3. Hazards identification

Hazardous Nature:
SAFETY DATA SHEET
MP101 Extra Fine White Filler

3.1 Classification of the substance or mixture:

<table>
<thead>
<tr>
<th>Skin irritant</th>
<th>Category 2</th>
<th>H315: Causes skin irritation</th>
</tr>
</thead>
</table>

3.1.2 Classification according Directive 67/548/EEC-1999/45/EC:
Classified as dangerous in accordance with the criteria of Directives 67/548/EEC and 1999/45/EC
Xn; R20 - Harmful by inhalation
Xi; R36/38 - Irritating to eyes and skin
R10 – Flammable

3.2 Label elements:

Flame

Flam. Liq. 3 H226 Flammable liquid and vapour.

Signal Word Warning

Hazard Statements
H226 Flammable liquid and vapour.

Precautionary Statements
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P241 Use explosion-proof electrical/ventilating/lighting/equipment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P240 Ground/bond container and receiving equipment.
P233 Keep container tightly closed.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P370+P378 In case of fire: Use for extinction: CO2, powder or water spray.
P403+P235 Store in a well-ventilated place. Keep cool.
P501 Dispose of contents/container in accordance with local/regional/national regulations.
4. First aid measures

4.1 Description of first aid measures:

**General:**

**After inhalation:**
- Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service

**After skin contact:**
- Wash immediately with lots of water. Soap may be used. Do not apply (chemical) neutralizing agents. Take victim to a doctor if irritation persists

**After eye contact:**
- Rinse immediately with plenty of water. Do not apply neutralizing agents. Take victim to an ophthalmologist if irritation persists

**After ingestion:**
- Rinse mouth with water. Do not induce vomiting. Do not give anything by mouth to an unconscious person.

Consult a doctor/medical service if you feel unwell

4.2 Most important symptoms and effects, both acute and delayed:

4.2.1 Acute symptoms

**After inhalation:**

**After skin contact:**
- Tingling/irritation of the skin.

**After eye contact:**
- Irritation of the eye tissue.

**After ingestion:**
- AFTER ABSORPTION OF HIGH QUANTITIES: Central nervous system depression. Symptoms similar to those listed under inhalation.

4.3 Indication of any immediate medical attention and special treatment needed:

If applicable and available it will be listed below.
SAFETY DATA SHEET
MP101 Extra Fine White Filler

5. Fire fighting measures

5.1 Suitable extinguishing media:
- Polyvalent foam
- Carbon dioxide
- ABC powder

Unsuitable extinguishing media:
- Solid water jet ineffective as extinguishing medium

5.3 Special hazards arising from the substance or mixture:
- Upon combustion: CO and CO2 are formed. Polymerizes on exposure to temperature rise: (increased) risk of fire/explosion.

5.4 Advice for Firefighters:
- If exposed to fire cool the closed containers by spraying with water. Physical explosion risk: extinguish/cool from behind cover. Do not move the load if exposed to heat. After cooling: persistent risk of physical explosion

5.5 Special protective equipment for firefighters:

6. Accidental release measures

6.1 Personal precautions:
- Stop engines and no smoking. No naked flames or sparks. Spark- and explosion proof appliances and lighting equipment

6.2 Environmental precautions:
- Contain leaking substance. Dam up the liquid spill. Prevent spreading in sewers. Use appropriate containment to avoid environmental contamination.

6.3 Methods for cleanup and containment:
- Take up liquid spill into absorbent material, e.g.: sand, earth, vermiculite, powdered limestone. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with an excess of water. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.
SAFETY DATA SHEET
MP101 Extra Fine White Filler

7. Handling and storage

The information contained in this section is a general description. If applicable and available, exposure scenarios are attached in the annex. Always use the relevant exposure scenarios that correspond to your identified use.

7.1 Precautions for safe handling:
- Insufficient ventilation: use spark-/explosion proof appliances and lighting system. Insufficient ventilation: take precautions against electrostatic charges. Keep away from naked flames/heat. Insufficient ventilation: keep naked flames/sparks away. Gas/vapour heavier than air at 20°C; Observe normal hygiene standards. Keep container tightly closed. Remove contaminated clothing immediately. Do not discharge the waste into the drain.

7.2 Conditions for safe storage, including any incompatibilities:
Safe storage requirements:
- Store in a cool area. Store in a dark area. Keep out of direct sunlight. Ventilation at floor level. Fireproof storeroom. Store at room temperature. Meet the legal requirements. Max. storage time: 365 day(s).
Keep away from:
- Heat sources, ignition sources, combustible materials, oxidizing agents, (strong) acids, (strong) bases, halogens.
Suitable packing material:
- Tin

7.3 Specific uses:
- See information supplied by the manufacturer for the identified uses.

8. Exposure controls/personal protection

<table>
<thead>
<tr>
<th>Exposure Standard</th>
<th>100-42-5 Styrene monomer</th>
<th>14807-96-6 Talc (Mg3H2(SiO3)4)</th>
</tr>

<tr>
<td></td>
<td>TWA: 213 mg/m3, 50 ppm</td>
<td></td>
</tr>
</tbody>
</table>

Engineering Controls:
Maintain air concentration below occupational exposure standards, providing adequate ventilation. Use explosion-proof ventilating equipment
Respiratory Protection:
Use a Safe Work Australia approved vapour respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapour, inadequate ventilation, development of respiratory tract irritation) and engineering controls are not feasible. See Australian Standards AS/NZS 1715 and 1716 for more information.

Skin Protection:
PVC, PVA, nitrile, neoprene, rubber or vinyl gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered. Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See Australian/New Zealand Standard AS/NZS 4501 for more information.

Eye and Face Protection:
Eye and face protectors for protection against splashing materials or liquids. See Australian/New Zealand Standard AS/NZS 1337 for more information.

SAFETY DATA SHEET
MP101 Extra Fine White Filler

Solubility in Water: Insoluble
Partition Coefficient (n-octanol/water): Not determined.
VOC: 12 %

10. Stability and reactivity

Possibility of Hazardous Reactions: Hazardous polymerisation will not occur.
Chemical Stability: Stable at ambient temperature and under normal conditions of use.
Conditions to Avoid: Heat, sparks, open flames and other sources of ignition.
Incompatible Materials: No further relevant information available.
Hazardous Decomposition Products: Oxides of carbon.

11. Toxicological information

Toxicity:

<table>
<thead>
<tr>

<tr>
<td>5000 mg/kg (rat)</td>
</tr>
<tr>
<td>24 mg/l (rat)</td>
</tr>
</tbody>
</table>

Acute Health Effects
Inhalation: May cause headache and nausea.
Skin: No adverse health effects expected.
Eye: No adverse health effects expected.
Ingestion: Ingestion is not considered a potential route of exposure

Skin Corrosion / Irritation: Based on classification principles, the classification criteria are not met.
Serious Eye Damage / Irritation: Based on classification principles, the classification criteria are not met.
Respiratory or Skin Sensitisation: Based on classification principles, the classification criteria are not met.
Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.
Carcinogenicity: Talc not containing asbestos or asbestiform fibres is classified by IARC as Group 3 - Not classifiable as to its carcinogenicity to humans. Styrene is classified by IARC as Group 2B - Possibly carcinogenic to humans.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Single Exposure: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Repeated Exposure: Based on classification principles, the classification criteria are not met.

Aspiration Hazard: Based on classification principles, the classification criteria are not met.

Chronic Health Effects: Repeated or prolonged skin exposure may cause dry skin.

12. Ecological information

Ecotoxicity: No information available

Aquatic toxicity: No information available

Persistence and Degradability: No information available

Bioaccumulative Potential: No information available

Mobility in Soil: No information available

Other adverse effects: Not dangerous for the ozone layer.

13. Disposal considerations

Disposal Methods and Containers: Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration: Please consult your state Land Waste Management Authority for more information.
