

Veterinary Specialist Services perform thousands of fracture repairs each year.

We have many different fracture repair options available to us including bone plates, pins, interlocking nail and external skeletal fixators.

What we pride ourselves on at VSS is careful individual patient assessment, minimisation of complications, advanced anaesthetic monitoring, individualised pain management plans, stress-free hospitalisation and clear instructions for owner care at home.

Follow the QR code to our dedicated webpage on 'Fracture Repair at VSS'.

This webpage also contains a video of one of our specialist surgeons talking more about the process of fracture repair surgery at VSS.

Information about payment options can be found here:

A patient's journey through our hospital
