

Veterinary Specialist Services have been performing total hip replacement surgeries for over 20 years with excellent outcomes.

One of the things we know about joint replacement is that there is a proven correlation between surgeon experience and successful outcomes. We believe this is one of the reasons VSS has such excellent clinical results with this procedure.

We also pride ourselves on advanced anaesthetic monitoring, 24 hour care, pain-free, stress-free hospitalisation and clear instructions for owner care at home.

Follow the QR Code to our dedicated webpage, where you can find information on:

- Hip dysplasia
- Total hip replacement
- A video outlining the process of referral for a total hip replacement surgery, including what to expect at your consultation and information about aftercare.

Information about payment options can be found here:
