

WIDE LOAD[®]
ENGINEERED FOR WIDE FEET

THE WIDE LOAD DIFFERENCE

Since its release in 2009, WIDE LOAD® has become the benchmark in wide fitting extra depth safety footwear. Designed and developed in Sydney Australia in collaboration with leading orthopaedic/custom made shoemakers and Podiatrists*, the WIDE LOAD® last is based on 6E fitting profile with an additional 8mm of volume of forefoot girth.

The perfect foot is hard to find, and some say one does not really exist. It is true however, that some injuries and foot trauma is more likely to be associated with incorrectly designed or poorly fitted safety footwear. Wide Load boots are designed and manufactured with a wide profile steel/composite cap that has been specifically designed to meet the needs of those with wide feet, it is 12-15mm wider and 5mm higher than the industry 'standard', thus facilitating the fitting of custom-made orthotics and more importantly, challenging feet.

The anatomically designed forefoot provides an additional 15% "footprint" compared to the industry standard. This additional surface area combined with the self-cleaning cleat design outsole provides maximum stability and enhanced slip resistance. Walking can increase ground forces by up to 3 times body weight. The Wide Load bevelled heel strike and heel cushion zone helps reduce shock and lesson the effects of these forces on the body.

The foot is a complex structure containing 26 bones, a network of muscles, joints and ligaments. A fiberglass shank in all Wide Load boots is incorporated to enhance torsional rigidity and support in the waist of the boot. The shank also assists the forefoot to flex in the correct position.

The new airport friendly composite cap range is 10% (150 grams) lighter than its steel cap counterpart and incorporates high performance 'nylon6' non-metallic lace hardware. The cap provides less transmission of hot and cold while achieving "steel-like" safety for impact and compression. The cap meets all safety standards without compromising comfort.

Endorsement - MyFoot Dr Australia

“

After consultation with the Wide Load team during the early stages of the boot's development and from a practical perspective for over 12 years, I have been prescribing and recommending the Wide Load range of boots successfully in clinical practice. I have found no other boot that meets the needs of workers with challenging and problematic feet. Whether it be to accommodate prescription foot orthotics, feet that are extra wide or just simply toes of different lengths and shapes.

The unheralded and unique depth and width of Wide Load boots provides fitment like no other over the counter boot. Specifically, the toe cap is ergonomically engineered, and size proportioned to each boot length to better allow the boot to be customised. The days of cramped toes and damaged digits are a thing of the past.

”

Simon Webb Podiatrist MyFootDr

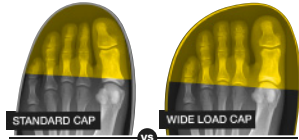

STEEL TOE PRODUCT FEATURES

EXTRA WIDE TOE CAP - 6E

Extra Wide Steel Cap

15mm wider and 8mm higher than standard steel toe caps

INSOLE COMFORT

Multi-Fit Insole System

Interchangeable 3mm EVA inserts provide adjustable fitting

Orthotic Friendly

The removable footbed is easily substituted for prescription orthotics creating maximum room
*This may void AS 2210.3 safety standards

LEATHER

Leather Upper

Water resistant 2.2mm nubuck/ premium full grain leather

Slip resistant TPU outsole with bevelled heel strike for enhanced grip

Resist exposure to most acids, oils and chemicals

TPU toe bump/scuff protector

"FOD" self-cleaning sole design

Outsole heat resistant to 130°C

COMFORT

Lightweight Polyurethane Midsole

Provides superior cushioning and support. Offers advanced shock-absorbency reducing foot fatigue

Fully Lined

Soft polyester AirMesh® Tri-Layer breathable lining with superior wicking and thermal properties.

Padded Collar & Tongue

Super-soft "ester" foam collar/tongue padding for added comfort and support

Removable Polyurethane Footbed

With built-in arch support & heel cup for enhanced cushioning. Genuine BK mesh 260gsm top cover with Agion® antibacterial treatment to reduce foot odour

Fiberglass Shank

To enhance torsional support and midfoot stability. Greatly assists in reducing leg and foot fatigue

HEALTH & SAFETY

Certified to:

AS 2210.3: 2019
CLASS 1: SB-SRA
EN 20345: 2004
ID: BMP 670431

PU Cushion Midsole

TPU Outsole – Slip and Heat Resistant to 130°C

690WZ | WHEAT – ZIP – 15CM (6')

- Water resistant nubuck leather
- Deep, wide fitting steel toe cap (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- YKK side zipper
- Temperature regulating lining
- Sizes UK 6-15 (US 7-16)
Full sizes only

690SZ | STONE – ZIP – 15CM (6')

- Water resistant nubuck leather
- Deep, wide fitting steel toe cap (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- YKK side zipper
- Temperature regulating lining
- Sizes UK 6-15 (US 7-16)
Full sizes only

690BZ | BLACK – ZIP – 15CM (6')

- Water resistant oil kip leather
- Deep, wide fitting steel toe cap (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- YKK side zipper
- Temperature regulating lining
- Sizes UK 6-15 (US 7-16)
Full sizes only

890WZ | WHEAT – ZIP – 20CM (8')

- Water resistant nubuck leather
- Deep, wide fitting steel toe cap (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- YKK side zipper
- Temperature regulating lining
- Sizes UK 6-15 (US 7-16)
Full sizes only

890SZ | STONE – ZIP – 20CM (8')

- Water resistant nubuck leather
- Deep, wide fitting steel toe cap (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- YKK side zipper
- Temperature regulating lining
- Sizes UK 6-15 (US 7-16)
Full sizes only

890BZ | BLACK – ZIP – 20CM (6')

- Water resistant oil kip leather
- Deep, wide fitting steel toe cap (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- YKK side zipper
- Temperature regulating lining
- Sizes UK 6-15 (US 7-16)
Full sizes only

690 LACE

690WL | WHEAT – LACE – 15CM (6’)

- Water resistant nubuck leather
- Deep, wide fitting steel toe cap (200J) (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- Temperature regulating lining
- Sizes UK 6-14 (US 7-15)
Full sizes only

690BL | BLACK – LACE – 15CM (6’)

- Water resistant oil kip leather
- Deep, wide fitting steel toe cap (200J) (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- Temperature regulating lining
- Sizes UK 6-14 (US 7-15)
Full sizes only

690 – NON SAFETY

690WZN

Sizes UK 6-15 (US 7-16)
Full sizes only

690BZN

Sizes UK 6-15 (US 7-16)
Full sizes only

NON SAFETY – ZIP – 15CM (6’)

- Water resistant leather
- Deep, wide fitting toe box (6E)
- Slip, oil and fat resistant TPU/PU Sole
- TPU scuff cap
- Removable PU cushion insole
- Temperature regulating lining

490 PULL ON

490WPO | WHEAT – PULL ON – 16CM

- Water resistant nubuck leather
- Deep, wide fitting steel toe cap (200J) (6E)
- Slip, oil and fat resistant TPU/PU sole
- TPU scuff cap
- Removable PU cushion insole
- Temperature regulating lining
- Sizes UK 6-14 (US 7-15)
Full sizes only

490BPO | BLACK – PULL ON – 16CM

- Water Resistant oil kip leather

THE DIFFERENCES OF THE COMPOSITE TOE RANGE;

- Metal free toe cap
- Rubber sole
- Anti-static
- Metal free lace hardware
- 10% lighter than steel toe cap

290BSC | BLACK – LACE

- Deep, wide fitting composite toe cap (6E)
- Rubber sole - slip, oil and head resistant
- All black breathable nylon upper
- TPU toe guard and heel skeletal stabiliser
- Metal free
- Airport friendly
- Sizes UK 6-16 (US 7-17) Full sizes only

Certified to AS 2210.3.2019 CLASS 1 S1, SRC, HRO

690BLWC | BLACK – WATERPROOF – 15CM (6')

- SympaTex ® 100% waterproof membrane
- Deep, wide fitting composite toe cap (200J) (6E)
- Nitrile rubber sole - slip, oil and fat resistant
- TPU scuff cap
- Removable PU memory foam cushion insole
- Coats NylBond stitching
- Metal free - airport friendly
- Sizes UK 6-16 (US 7-17) Full sizes only

Certified to AS 2210.3.2019 CLASS 1 S2, SRC, HRO

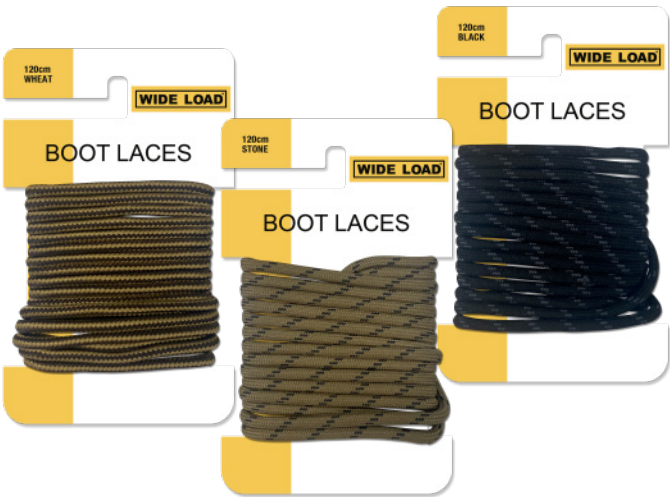

ACCESSORIES

REPLACEMENT PU FOOTBED

- Memory foam top layer which moulds to the foot offering a personalised support
- PU base providing superior shock absorption.
- Designed by leading podiatrist providing cushioning and support.
- Sizes UK 6-15

REPLACEMENT BOOT LACES

Steel Toe

- Styles 690 = 140cm
- Styles 890 = 165cm

Composite Toe

- Styles 690 = 165cm
- Styles 890 = 190cm

Colours: *Wheat* | *Stone* | *Black*

USE & CARE

- Clean boots regularly.
- Examine boots before and after each use.
- Leather should be polished and treated with leather protector.
- Suede should be brushed and treated with suede protector.
- Do not use solvents to clean work boots.
- Brush or wash the sole to remove contaminants.
- Store out of direct sunlight in a cool, dry place.
- To prevent water damage, store in a well-ventilated area. Inspect boots for water damage regularly.
- Do not force dry work boots.
- Do not make any unauthorised alterations to the boot such as mechanical stretching or adding vent holes. Doing so may make the footwear:
 - Non-compliant with standards.
 - Void any certification & approval.
 - Reduce the product's effectiveness.
- Replace footwear when it shows any of the following: cracks, break in leather, toe cap exposed, any other serious damage.

WARRANTY STATEMENT

All Wide Load footwear carries a 6 month manufacturer's warranty from the date of purchase against defective workmanship or materials. This warranty will be voided if in the opinion of the manufacturer or authorised distributor the product has been subjected to abuse or excessive wear and tear including exposure to cement, lime, chemicals, water or heat, if the product was not designed to be used in those conditions. As a condition of the warranty you must present evidence of date and place of purchase in the event of any claim. The warranty is offered in addition to and does not affect your statutory consumer rights.
