

Family Kompakt

Close-Fitting Cassette awning that is easy to operate

*“...always keeping sight,
of the real values.”*

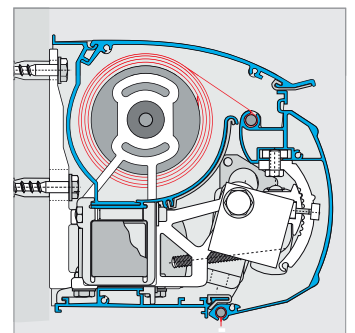

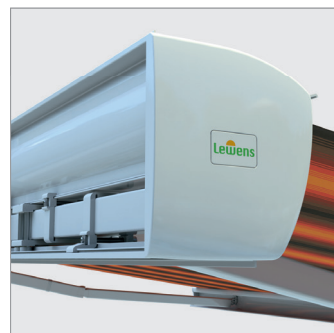

The distinctive features of our FAMILY KOMPACT are its superior quality, ease of operation and high value retention. Whether in cassette or semi-cassette form, its classic design lends tranquility to the home and bestows a holiday atmosphere.

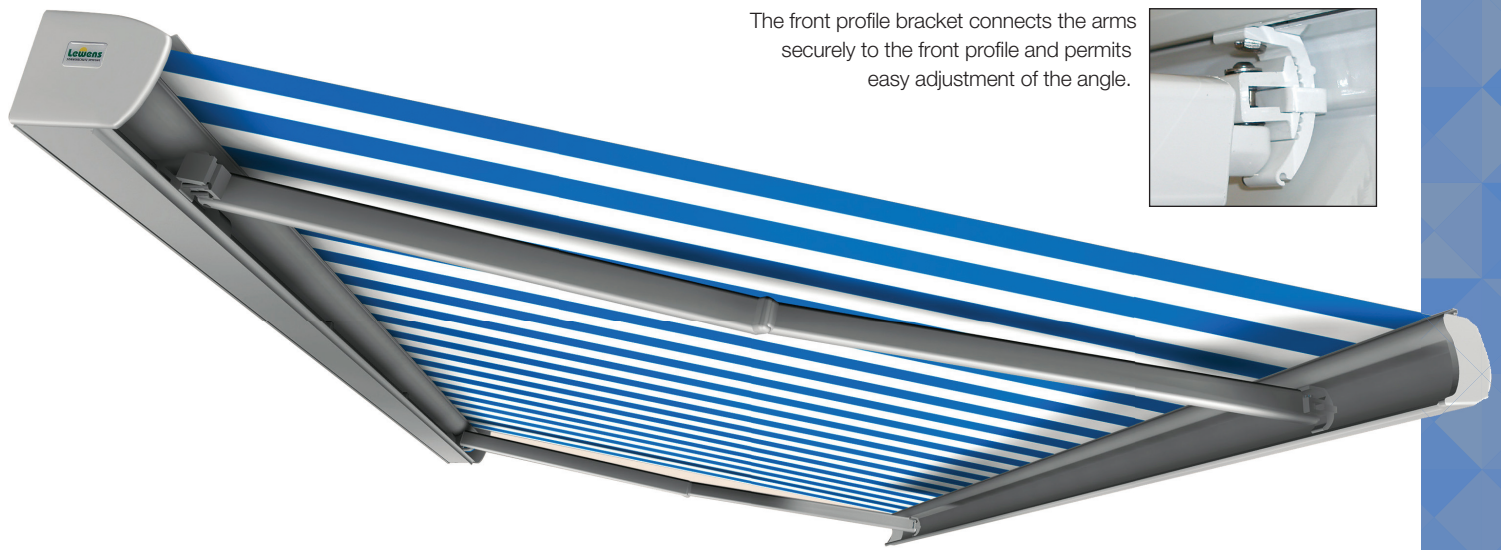

This high-quality cassette awning fits snugly against the wall and offers a high degree of comfort and superb technical features. The FAMILY KOMPACT combines the protective function of a cassette awning with the ease of installation of an open awning: the support tube is open, making fitting simpler. The cassette can also be supplied without side end caps for installation in niches.

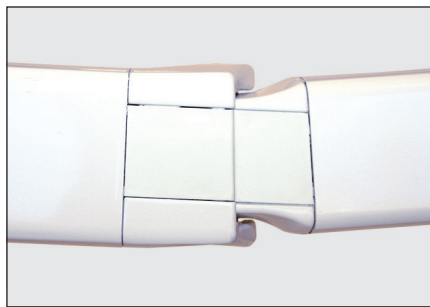

SEMI- CASSETTE TYPE

The SEMI-CASSETTE type is closed on three sides: the protective cover, base profile and close-fitting front profile protect the awning fabric and mechanism from dust, rain and the effects of the weather when the awning is retracted.

The front profile bracket connects the arms securely to the front profile and permits easy adjustment of the angle.

Arm Bracket ▲

Arm bracket of high-strength aluminium alloy with support and high-impact screw, upper arm fork of forged aluminium.

In the central hinged arm joints, a plastic sheath prevents soiling and corrosion of the double cable and extends its service life.

Fabric Cover Shell ▲

the fabric cover shell offers an elegant solution for concealing the fabric roller.

System

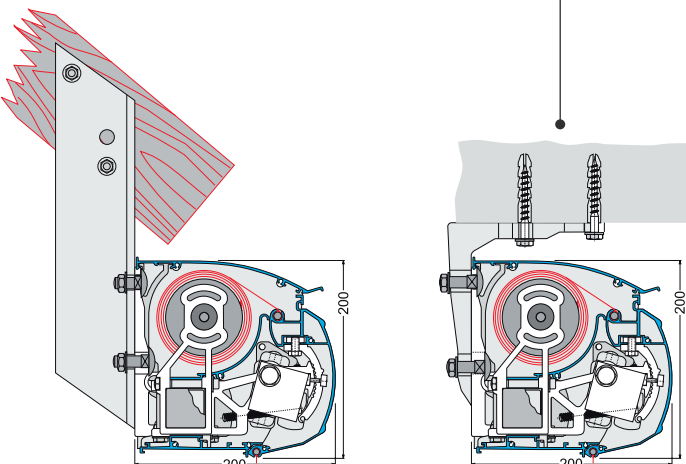

The FAMILY KOMPACT is a sturdy, longlasting quality awning with:

- ▶ Front profile with double hollow chamber and integral rain gutter
- ▶ 40 x 40 x 2 console tube, galvanised and powder-coated
- ▶ Rust-free pins, Teflon-coated bearings, stainless steel screws

Options

For even greater comfort you can equip your FAMILY COMPACT with:

- ▶ Motion Sensor
- ▶ Sun and Wind Sensor
- ▶ Radio Remote control
