

DID YOU KNOW? The Safe Cross signs are there for you to cross roads safely. You will see them placed at the front of the school and at Reislung and Venning Streets.

DID YOU KNOW? The zig zag lines painted on the road surface mean to reduce your speed to 25km/h to enter a side road.

TRAFFIC MANAGEMENT / CAR PARKING

We have recently conducted a risk assessment for traffic management and parking at Antonio Catholic School.

We ask that you please be aware of the appropriate places to enter / leave the school site with your children.

When you **walk** onto the school site, please **use the main pedestrian access points and not the car park.**

Bollards are in place from 8.30 – 9.00am and 2.30 to 3.15pm to restrict vehicle movement and potential accidents.

If you utilise the rear car park:

Due to the continuous vehicle movement, parents / caregivers are requested to closely monitor your child's safety whilst in the car park area and accompany children to walk through the school oval gate.

Drivers have a responsibility to drive safely and be aware of pedestrians.

A teacher will always be on duty to monitor the safety of children arriving and departing the school site.
