

INSIGHTS WEBINAR SERIES

Presented by Phil Parisi, of Business Australia

Business Australia's purpose is to work with businesses of all sizes around the country, to help them become better at being in business, and their community has now grown to over 70,000 members nationally.

One area they're helping businesses in is cyber security with a solution that supports businesses in how to spot cyber risks and prevent attacks with monthly awareness training based on real-life scenarios plus much more.

This webinar covered:

- The top 5 things you can implement immediately to protect your business
- The importance of preparing your business for a cyber-attack, and building your 'human firewall'
- The steps to undertake if you believe you've been attacked
- Small business cyber-attack trends and real-life case studies
