

WOMEN IN DENTISTRY

Brought to you by

ADIA

Thank you for downloading the Women in Dentistry Forum webinar

Chaired by ADIA Member: *Tabitha Acret*

The discussion for this forum included:

- After COVID-19, how do we educate our patients that we are an essential service? If we can come up with a clearer communication to the community this will impact our government approach.
- How do we manage the influx of patients post COVID-19, as an industry and as clinicians?
- The present lack of access to trade and the face-to-face contact that comes from in person conferences.
- How does private health insurance impact our business now and after COVID-19?
- Technology and where it is taking us; including ultrasonic baths and thermo disinfectors and positive changes in infection control in the post COVID-19 world.
