

Pioneering sashless window design for uninterrupted views

Our cost-effective single glazed sashless windows deliver a seamless view but can still be opened to maximise airflow and provide ventilation. Designed to let hot air out and cool air in, single glazed sashless windows are a natural air conditioner and make the perfect partner to evaporative cooling solutions in moderate climates.

Unlike awning windows which encroach on surrounding spaces, our single glazed sashless windows are the ultimate space saver for courtyards, decks and verandahs.

Put your furniture wherever you like and eliminate trip hazards and head knocks for small children. They're also great for internal spaces, like laundries, where you may not have an external door but still need ventilation. Available in both vertical and horizontal configurations to suit 6mm or 10mm glass, there's sure to be one to suit your needs.

THE BENEFITS

- Showcase your view with a classic, seamless design that will suit most architectural styles
- Ultimate low maintenance window style due to few moving parts
- Sash slides on adjustable minimal friction nylon rollers, along an aluminium track, providing a smooth opening and closing action
- Weather sealed around the frame
- Bushfire resistant to BAL 29
- Fly screens can be easily installed
- Available in timber and aluminium frames (aluminium available in any powdercoat or anodised finish)
- 100% Australian owned and manufactured in Melbourne

Our Range

WERS Rating

ABOUT US

With over 40 years' experience in the window industry, Jewel Sashless Windows delivers a wealth of knowledge and a passion for innovation. In Victoria, we supply our sashless windows with a full installation service.

We also offer sashless window kits, which can be easily installed by fabricators, cutting out the middle man and allowing full control of schedules and costs.

Being a small, 100% Australian owned and operated business, we pride ourselves on our quality and service, working with our customers to ensure beautiful, functional results every time.
