

Pioneering sashless window design for easy access

Our servery sashless windows provide easy access and cooling ventilation. Working in a similar fashion to older style windows, they have a single pane of fixed glass and another pane that moves independently counterbalanced to weights.

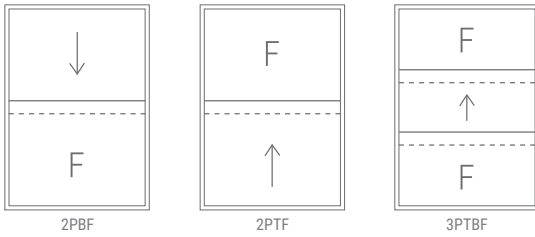

This style of window is perfect for servery situations like ticket counters, canteens, cafés or to give you a stylish access point from your kitchen to your alfresco area at home.

Servery sashless windows can also be made bottom fixed to give you added security on your second storey (or higher) windows or around a pool area to meet council requirements. Available in a number of single glazed, double glazed and thermally broken configurations, there's sure to be one to suit your needs.

THE BENEFITS

- Excellent for food areas needing access to kitchens, courtyards and balconies
- Excellent for serving areas to the public such as ticket offices and canteens
- Popular in cafes and restaurants for an indoor / outdoor feel
- Perfect alternative to pool fencing where space is limited
- Increased security to prevent fall out
- Maximise your view, space and ventilation
- Bushfire resistant to BAL 29
- Fly screens can be easily installed
- Available in aluminium frames with any powdercoat or anodised finish
- 100% Australian owned and manufactured in Melbourne
