YOUR BUSINESS SUCCESS®

SOFTWARE SYSTEM

A "complete cloud
platform" to transform
your business

The Your Business Success® Software platform is a complete cloud based system proven to help grow your business.

The software is designed to help business owners maximise the value of their business and take control of the organisation.

It starts with your strategic goals and plans for the business, creating an action plan to hold you and your team accountable.

Next, you review your HR and Systems with a range of tools to manage job descriptions, conduct performance appraisals and write a complete set of policies and procedures for the business.

The system then holds you and your team accountable with an in-built task manager.

HEAR SOME TYPICAL CLIENT COMMENTS...

“

Preparing a business plan was so simple! Thanks to the **Your Business Success®** program...I had a plan done in one afternoon

“

We were finally able to conduct performance appraisals. It was so easy and really improved performance

“

How did we ever operate the business without using **a system to manage tasks & projects...** now I can keep across all projects by department

“

We were out of control, until we implemented the **Operations manual...** now I get less questions and our quality has skyrocketed.

“

Now with a **simple dashboard in place** I keep track of the business and our financials

“

We get audited every year for **Quality...** our auditors love the **MAUS Software**

TAKE YOUR BUSINESS TO THE NEXT LEVEL

The **Your Business Success®** software System includes all the modules you need to accelerate your business. Plus it includes a 12-module business accelerator program designed to supercharge your business, improve and empower your employees and re-inspire you - the business owner! The program drives business owners to work **ON** the business, and free themselves from working **IN** their business.

Do you feel like your business should be performing better? Do you feel like you are working harder than everyone else? Do you wish you had like-minded people to help you make important business decisions? Are your staff in need of motivation? And most importantly, do you dream of running a business that doesn't rely on you?

rewarded

MAKE BETTER BUSINESS DECISIONS

The **Your Business Success® Software System** includes health check diagnostics, business planning creators and cash flow management software. It includes a monthly KPI Dashboard to keep you in control.

The project and management module sends alerts to you, the business owner to remind you of outstanding priorities.

OUTCOMES

What do the best businesses in the world have in common? Systems that are automated. So why should you not have a complete software system in a box. Every month you wait, is potentially costing you thousands and the lifestyles you deserve

TRANSFORM YOUR STAFF INTO ASSETS

Create the right team to get you where you want to go. 70% of staff are not engaged in the business they work in.

Disengaged workers are three times more likely to call in sick, but other expenses accumulate too: missed opportunities, reduced productivity, and the impact of stress on colleagues and business owners who are forced to pick up the slack.

DOUBLE YOUR BUSINESS VALUE

Only 13% of businesses are prepared and ready for an eventual exit. At some point, you will need to exit your business, and this should be the biggest financial event of your life... should be. By owning a business, you own an asset that could be worth millions. Are you in the 13% that are prepared and ready?

SAVE 20 HOURS OF YOUR TIME PER WEEK

Build a business that can run without you. Running a business does not have to be chaotic and stressful, and you will be surprised how simple strategies will save you HOURS.

When a small business is systemised the owner has the power to transform it into an incredibly effective organisation.

- 1. Save yourself time.-** We have seen participants who implemented the program methodologies achieve time savings in their business of up to 20 hours per week
- 2. Energy.-** If you have more free time on your hands, you have time to enjoy those precious moments with your family
- 3. Money.-** Systemising means fewer mistakes which mean less money spent rectifying them.
- 4. Less Stress.-** You are more in control so your stress levels will drop naturally.
