

1. Amphitheatre seating opening to plaza area and into play space.
2. Horizontal logs for balance and incidental play spaces
3. Ramped accessible path of compacted fines winding through the playspace to the oval. Existing stairs widened with more steps to reduce steepness.
4. Digging patch with various soils, rocks and bones. A stick fence borders the space for a boundary and create quiet corners.
5. Removal of one fence panel to improve flow through to the oval and wider play spaces. Edge plantings to soften the fence line.
6. Existing stage reworked. Upright poles for hanging cloths and creating cubbies/stage curtains. Slat fence around one corner to create a sheltered, quiet corner for play. Horizontal ropes connect to the upright poles for gross motor play
7. Reworked rock retaining wall using existing rocks. Fallen logs positioned to climb up wall.
8. Fallen log scramble and upright log steppers to max height 600mm.
9. Creek winding through trees. Hand pump at top of pebble and rock lined creek that runs beneath a ramped timber bridge into Riparian plantings and rock crossings.
10. Music station and timber panels for children to add their own instruments or interactive play. Blackboard attached to one pane. Log seating for small group play.
11. A tiered sandpit with retaining rocks in between levels. A hand pump atop a carved rock into the sandpit.
12. Step up beneath an entrance arch to a play kitchen with log seating and table, surrounded by timber slat fencing.
13. Existing group seating to remain with relocated picnic benches for outdoor lessons.
14. Extend paved area with reused pavers for an extensive handball zone. Timber seating in garden beds for waiting children. Battered rock retaining to create habitat and incidental climbing.
15. A winding compacted fines path for morning walks and a running track. Indigenous plants and grass create a simple landscape for inquiry and play. Flag poles relocated to this space
16. Double basket swing beneath existing shade.
17. A large climbing structure with natural logs, ropes and horizontal bars.
18. Multi level cubby with outdoor kitchen
19. Large mound with a slide into sand softfall. A tunnel beneath the mound communicates between two sandpits.
20. A creek with a hand pump directs into the sandpit as well s to a natural creek with rocks, logs and plants.
21. A natural bush church amphitheatre for spiritual reflection.
22. Loose parts play space with cubby frames and free space for creativity.
